Email: [tparks507@gmail.com](mailto:tparks507@gmail.com)  
Website: [www.trainingforyou.net](http://www.trainingforyou.net)

**Session 1: Fire Hydrants operation, maintenance and repair O&M** We will take a look at fire extinguishers, how they are built, operation and maintenance of them as well as testing.

**Session 2: Bearing failure, detection and prevention in water and wastewater equipment. O&M** This session will cover bearings used in all of our equipment and how to make them last longer. We will also cover equipment lubrication practices in this session.

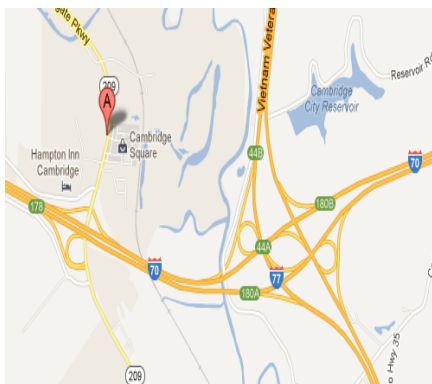

**Session 3: Trenching and shoring X** Trenching is one of the biggest accident causes in construction projects in our jobs. This session will help you understand the dangers of that hole or ditch you enter in the wee hours in the morning to repair that busted water line.

**Session 4: Asset Management O&M** It's a requirement that you must have a asset management plan by Oct 2018. We did one based on the EPA's "Small Systems Asset Management Plan," we will go over it along with excel spreadsheet demo we developed.

**Session 5: Storm water devices, operation and maintenance X** This session will cover construction storm water practices that are used during construction of your plants as well as components used by engineers and contractors to protect our streams.

**Session 6: 30 years goes fast X** A fun look at one man's career over the last 30 years. Time flies when your are having fun!

**Please check our website [trainingforyou.net](http://trainingforyou.net) often, just in case we need to update this flyer!**
