**CLIENT FEEDBACK:**

Gigmasters.com June 2017:

Jen P (Client Review)

I spent a lot of time researching different bands for our event. It was important to me that I find someone authentic, with the right sound and style that I was looking for. We love real Jamaican reggae. We listen to Chronixx, Protoje, Raging Fyah, Dre Island, all the Marley's, etc. I especially love roots reggae. I wasn't just looking for an island sound with steel drums, I wanted real reggae. Well, I got just what I wanted. We could have been in Jamaica instead of my back yard. Their equipment was top notch and delivered the absolute perfect sound. They are unbelievably talented. Professional, pleasant and everything I had hoped for. We will have them back again!
