

THE **fantasy** TRIBE

Who on Earth are We?

The fantasy tribe are a unique collective of mythical creatures, gathered with the intention of spreading fun, love and sparkle to everyone and everything that comes within the splash zone of their aura.

The tribe are a collective of 3 areas, it began with their own brand of handmade festival attire, including super sparkly harnesses, collars, garter sets, bra's and more..

Not only does the tribe offer the opportunity to dress like a mythical, but to sparkle like one too, as second up came the passion for sparkle, imagine a magpie on heat and your drawing near.. The fantasy tribe now promote their glitter spaffing abilities to be one of the most upcoming attractions of 2018, as not only is their glitter bio-degradable, but it is also applied by the unicorns who sneezed it out in the first place!

FUN FACT: The leader of the tribe 'Beth Sykess', has been a full time circus and festival performer for the past 8 years now. Why the fun fact? Well, having such extensive knowledge and contacts in the entertainment industry is what sets the tribe aside from standard traders. The fantasy tribe's aim is not not only to successfully promote products, but to become an attraction above anything else, and knowledge of how to put on a show is what makes this goal so achievable set the third and final section of the tribe in motion. Most of our mythicals are full time performers, and so it was decided that if the tribe are going to dress like an attraction, and glitter up like an attraction, why not promote themselves as an attraction?!

And there you have it, The Fantasy Tribe..

Please keep in mind that the suggested sets are not set in stone, sets can be shortened/lengthened and added but be aware that this may incur some slight surcharges.

Some of our mythicals are able to perform more than 1 of the given skills, so let us know if a few catch your eye, and we may be able to work out a plan where one artist can cover a few acts and save you having to pay out each full given fee.

When interest in expressed for certain skills, we can send you over a technical rider of requirements if the skill has specific needs. For example, some acts may need a stage or specific amount of space to fit in a prop.

Some acts will also require different fee's for travel, but we will always aim to keep these costs down as use as local artists as possible.
