

- The AffloVest is the first truly portable, battery-operated High Frequency Chest Wall Oscillation (HFCWO) vest on the market, and is approved for Medicare and private health insurance reimbursement.
- The self-contained AffloVest weighs less depending on size and does not require external air hoses or bulky generators, making it ideal for patients who travel or who need freedom of mobility.
- The Afflovest is intended for promoting airway clearance and improvement of bronchial drainage by enhancing mobilization of bronchial secretions where external manipulation of the thorax is the physician's choice of treatment.

Talk with your doctor if you or a loved one has been diagnosed with any of the following conditions:
