

## **WBF LC commentary**

### **Law 7A – Placement of Board**

The board must be placed on the table in the proper position. The board must then not to be moved after the players have taken their cards out of the pockets until the end of play of that board. This defines proper procedure and helps prevent fouled boards.

### **Law 7B – Inspection of an Opponent's Hand**

After a board is played, a player may look at a hand if either of his opponents agree or if the TD allows it.

### **Law 7C – Returning Cards to the Board**

After play, each player should mix his cards before returning them to the board. This is to avoid unauthorised information being obtained from the order in which cards were played at a previous table.
