

PET ENRICHMENT OPPORTUNITIES

2. FOOD PUZZLE

Food puzzles are great for both dogs and cats. Indoor cats thrive on being able to "hunt" for their food. There are a variety of these toys made specifically for all sizes, ages, breeds, and experience levels.

4. WATER FOUNTAIN

Our feline friends especially enjoy a water fountain versus a traditional bowl. It also helps to keep water fresher for longer!

1. SLOW FEEDING BOWLS

Slow feeder bowls allow pets to eat at a healthy pace and can help with digestion, weight loss, and provide a great distraction to keep pets busy as well as encourage natural foraging instincts.

3. FOOD TOYS

Food toys can take a little bit to figure out, but most pets will enjoy having something to work at! It is even fun for owners to watch!

5. SNUFFLE MAT

Snuffle mats can even be used to replace traditional food bowls. These are great for crate trained pets or multi cat households who may need to be in separate spaces during the day while owners are away.
