

Joyce Ehrlinger, Ph.D.

252 Mather St. Oakland, CA 94611 | 2110 NW Robert St. Pullman, WA 99163
(650) 825-5758 | ehrlinger@gmail.com

Education

Stanford University, Postdoctoral fellow in Social Psychology, 2004 – 2006

Cornell University, Ph.D. in Social Psychology, 2004

Bowling Green State University, B.A. Psychology & B.A. Philosophy, 1998

Professional Experience

Social Cognition Research, Founder/Principal Investigator, 2014 – present.

Washington State University, Assistant Professor of Psychology, 2013 – present

Florida State University, Assistant Professor of Psychology, 2006 – 2013

Methodological Expertise:

- 15+ years' experience designing and analyzing social cognitive psychological studies that address people's behavior and attitudes. My research has always been interdisciplinary, giving me equal expertise in social and cognitive psychology.
- 15+ years' experience in experimental design, participant recruitment, moderation of research tasks, data analysis, and communication of experimental psychology research findings from lab studies, field studies, and online experiments.
- 2 years' experience designing and conducting specifically qualitative research studies.
- 15+ years' experience with every stage of research from start to finish (literature review, design, implementation, data analysis, and written and verbal communication) using a variety of designs — quantitative and mixed method designs, correlational, quasi-experimental, and experimental designs (within and between subject), ab testing, and randomized controlled trials.
- 15+ years' experience in survey design (questionnaire design, sampling, analysis) and response effects.
- 15+ years' experience performing statistical analyses (e.g., Regression, ANOVA, HLM, SEM, PROCESS) and summarizing key findings.
- Fluent in SPSS, Qualtrics, and Microsoft Office.
- Proficient in SQL and R.
- 15+ years' experience communicating research findings through written reports (e.g., authored 23 peer-reviewed scientific journal publications and 7 chapters for edited volumes; 2400+ citations; h-index = 16).

- 15+ years' experience communicating research findings through in-person presentations to expert and non-expert audiences in academia, industry, and the community.
- 14+ years' experience teaching full and mini-courses addressing human behavior, attitudes, statistics, and research design.

Consulting and Collaborations:

- 4+ years' experience as industry consultant in content expert and research collaborator roles (e.g., Mindset Works, Morgan Stanley, Norton, School City, Sid Lee for The North Face). Experienced in developing research insights, synthesizing findings, and creating knowledge products for companies in my role as consultant.
- 10+ years' experience working with interdisciplinary research teams. Great appreciation and love for the well-informed perspective offered by interdisciplinary partnerships.
- 19+ years' experience enjoying research collaborations and teamwork with numerous partners (domestic, international, and cross cultural; academic and industry).
- Happiest working in a truly collaborative environment as a member of a great team.
- 15+ years' experience in research project management and mentorship, including 4+ years' experience as PI and co-PI on large federal grant projects focused on developing and testing applied interventions in the field.
