

Energy Wellness Partners Now Offering NovaThor Whole Body Light Pods

The whole-body light pod

MORE POWER LESS FATIGUE FASTER RECOVERY

WHAT IS NOVOTHOR?

What is NovoTHOR?

The NovoTHOR delivers a whole-body light therapy treatment called Photobiomodulation therapy.

Photobiomodulation Therapy (PBM Therapy)

PBM - previously known as Low Level Laser Therapy (LLLT) - is the application of red and near-infrared light to tissue where there is degeneration or injury, to improve repair and reduce inflammation and pain*.

PBM appears too good to be true as it does many things, but really it does just one thing and it does it very well and that is, it reduces oxidative stress*.

Oxidative stress is accepted as the underlying trigger for most diseases and degenerative conditions. It is also a component in the inflammatory phase of acute and chronic injuries.

Unlike drugs and surgery, PBM actually promotes regeneration, reduces inflammation and pain, is non toxic, is non invasive, and has no side effects.

Over 400 Randomized Controlled Trials have been published using PBM devices, and the technology has featured in over 4,000 laboratory studies. PBM is used in thousands of clinics, hospitals and elite sports institutions in over 70 nations.

The Treatment

The NovoTHOR is safe, relaxing and has no negative side effects. Clients are supplied with safety goggles and then relax into the NovoTHOR treatment pod for 8 - 15 minutes of whole-body restorative light treatment. The treatment is usually administered by a doctor, therapist or technician and may be repeated two or more times a week.

CLINICALLY PROVEN BENEFITS OF RED AND NEAR-INFRARED LIGHT

Less pain and inflammation

Faster rate of recovery after injury

Earlier return to physical health

Reduced fat and cardio-metabolic risk factors

Less soreness after exercise, faster recovery from exercise

Anecdotal reports include: better sleep, less stress and less depression

RESULT: Energy Wellness Partners' clients are THINNER, FITTER, HEALTHIER, and HAPPIER

HAPPIER CLIENTS

"About two weeks before my NovoTHOR treatment I was doing some lifting jobs around the house and felt fine. Later on during the night I started feeling pain in my lower left hip area. I thought I had strained my back muscles and proceeded to rub on some sports cream in an effort to alleviate the pain. I also used heat pads in the days that followed with no relief. I met Valerie at the The Rays of Hope wellness center and told her what happened and she suggested using the NovoTHOR Light therapy.

I was skeptical but thought I would give it a try. I had one 12 minute session and for the first time since the pain started I started to feel a big relief. The next day I returned for another session and like a miracle, the pain was gone and I feel fine. I highly recommend NovoTHOR for anyone in pain. The sessions are short but the relief is fantastic."

Michael Ramesar
VP MM&D Computers Center
Leesburg, Florida

"I have lived most of my adult life in pain. I was diagnosed with fibromyalgia back in 2001. I suffer from fatigue, and also have arthritis and COPD. When the NovoTHOR was introduced to my Fibromyalgia Support Group, I agreed to try it. I had 7 treatments and then I did something that would have previously been impossible: I went on a 5 hour round trip.

Normally after a journey like that I would have been face down in my bed. But when I got back we went out for a meal, came back, watched TV, then I slept for about 12 hours. Wow! Improved sleep, as well as the energy boost, what a blessing! Thank you so much of this wonderful treatment."

Ann Busby
Leader of the Fibromyalgia Support Group
The Villages, Florida

"The last 20 years I have suffered moderate to severe pain in my neck, shoulders and hips due to the stress of my profession. I have tried massage, chiropractic, energy therapy, physiotherapy, anti-inflammatories, and you name it to get me out of pain and it's cost me 1000's of dollars.

After a few sessions on the NovoTHOR I started to feel relief. I had 14 sessions in all and have considerable relief from all my symptoms. My wife asked me the other day how I was feeling as she had not heard me complain or moan when I rolled over in my sleep or groan when I get out of bed. I estimate a 70% improvement and have booked 4 more weeks to continue on this wonderful journey to health.

I also rode 70 miles in a recent bike festival and felt great. A side benefit is that I had a dry, itchy spot in my ear for which I have tried various creams to keep the itch away. The itchiness and dryness has improved and I no longer require creams. And now wife says I'm looking younger too!"
