TACHYON LEVEL III PRACTITIONER CERTIFIED CHAMBER PACKAGE

Tachyon Level 3 Practitioner CERTIFIED Package:

The Level 3 package is for setting up an entire room to emit Tachyon Energy to its highest potential and the perfect solution for professional use. Level 3 certified chambers meet and exceed all requirements for Tachyon Chambers set by Tachyon Living.

Our dedicated team will be there to carefully coach and assist you from purchase and preparation all the way through your first customer visits, regular group podcasts/calls for continued research, development and marketing strategies and to be there for you to answer and all questions you may have.

Level 3 chambers are also perfect for anyone who has an available room in their home or office and would like to turn that unused space into an additional revenue stream. The actual unit encompasses a 9'X9' area. We suggest a space around that unit (to maneuver) should be at least 2 feet. Thus, an 11'X11' foot area or larger would be sufficient. It is preferred to have a ceiling height of at least 8 feet.

Because of the unique flexible design of Level 3 Chamber, it can also be setup to operate as a mobile unit. Some people may simply choose to enjoy the Level 3 Professional Tachyon Chamber in their home or office for personal use too, as it will assist in elevating you to the highest in healing, EMF harmonization and spiritual development.

The versatility of the Level 3 Chamber allows for the Tachyonized Mats to have 3 way capabilities. For example they are designed to:

-  Fit perfectly in a Recliner (Top quality electric recliner is included in the Level 3 Chamber)
-  Be used on any bed
-  Be portable enough to take to Health Fairs or Spiritual fairs for promotion and sessions right there with the Tachyon Experience as their portability allows them to fit nicely into a travel case (also included in the Level 3 Chamber).

This is CERTIFIED TACHYON CHAMBER.
