Plasma Health ~ Body * Emotion * Soul

Plasma Health (Body * Emotion * Soul)

Conventional science teaches us that what we cannot measure, does not exist. This led to a separation between science and spirituality. Plasma Science combines both of these worlds.

The entire universe is made up of magnetical (giving) and gravitational (taking) fields. We absorb only those fields we can use, and we emit fields we do not need. After a while, the fields are balanced, creating balanced matters.

Imagine there is a technology, which can not only balance your physical body, but also helps you to find the roots (causes) of your own disease(s).

We do not cure diseases, but “process” them by bringing the body to a balanced state in such that the disease cannot exist. This means that you can achieve complete emotional and physical balance in a relatively short time.

Energy Wellness Partners is a registered member and distributor of The Keshe Foundation, an independent, non-profit and non-religious organization founded by nuclear engineer Mehran Tavakoli Keshe that aims to develop new scientific knowledge, new technologies and new solutions to major global problems like famine, water shortage, lack of electrical power supply, climate change and disease through the use of specially developed plasma reactors which will also give humanity the ability to travel in deep space.

The use of MaGravs, Nanomaterials, GANS, Liquid Plasma, Field Plasma and other Plasma technologies has come as a new dawn for humanity to progress and work in harmony with the Universe. Conventional technology applications are wasteful, damaging and cause pollution to the planet and all living beings. Plasma Science provides solutions and improves existing methods and use of resources in all aspects that touch the lives of all beings.

Plasma Science and Technology

The application of Plasma Science in the form of specially developed Plasma reactors, health units and other devices, will give humanity the real freedom to create energy, rebalance the body's health, and travel into deep space.

Plasma Science exists throughout the entire Universe. It is here and it belongs to you. Our knowledge, research and development regarding the Plasma structure has progressed to the point of enabling everyone to participate and benefit in the processes.

Plasma Science and Technology

The spectrum of plasma frequencies encountered will act on the physical, emotional, mental and higher bodies of the patient and help to balance and correct any deviations to recreate a fully charged and healthful state, restoring perfect charge distribution and compression in the cells, DNA, organs and organism.

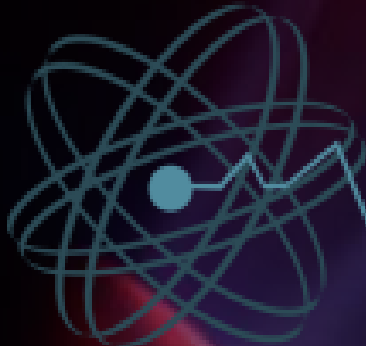

People have experienced very strong re-balancing after just a few 30min sessions, including helping the body to fully process the conditions of cancer. Pathogens, microbes, cancers simply can't co-exist in a body which has had its natural harmonics and bio-energy charge densities restored to optimum levels.

As with any balancing system that uses plasmas, people also experience the healing at the emotional and higher levels, enabling a personal evolution to occur at the same time as just the easing of perhaps physical symptoms. Since dis-ease originates from disquiet in the emotional or mental, or higher, bodies then we see that even the causes are usually resolved. Coherent wave forms and charge distribution are fractal and so the effects are compressed right through the biological system.

We experience life as a reflection of our natural frequency and state of being, and so as these are modified and balanced by exposure to plasmatic fields people find that their circumstances and relationships also improve. This is in fact perhaps the most significant experience that we can have. We learn what it means to be creators of our reality, and how to be better stewards of ourselves.
