WHAT IS THERAPHI

The Theraphi Device is therapy by Phi (Golden Mean ratio). Its an electronic device that produces a powerful plasma light and bio active field. Precise bio electric frequencies derived from the Phi Ratio harmonics are modulated and pass through a unique mixture of noble gases generating plasma super charged by a Tesla Coil. The resulting super coherent Plasma Field restores order to the bodies cellular regenerative system.

HOW DOES IT WORK

The Theraphi is a holistic non invasive method. The actual healing system is the bodies own cellular regeneration system. Biological systems use longitudinal EM waves. The inspiration of creating the Theraphi is over 100 years of pioneering effort by: Nikol Tesla, Georges Lakhovsky, Royal Raymnd Rife, and especially Antoine Priore. Now Dan Winter used his discovery of the fractal conjugate frequency signature of the Golden Ratio (Phi) to create Theraphi and Paul Harris used his electronics and plasma expertise to build it.

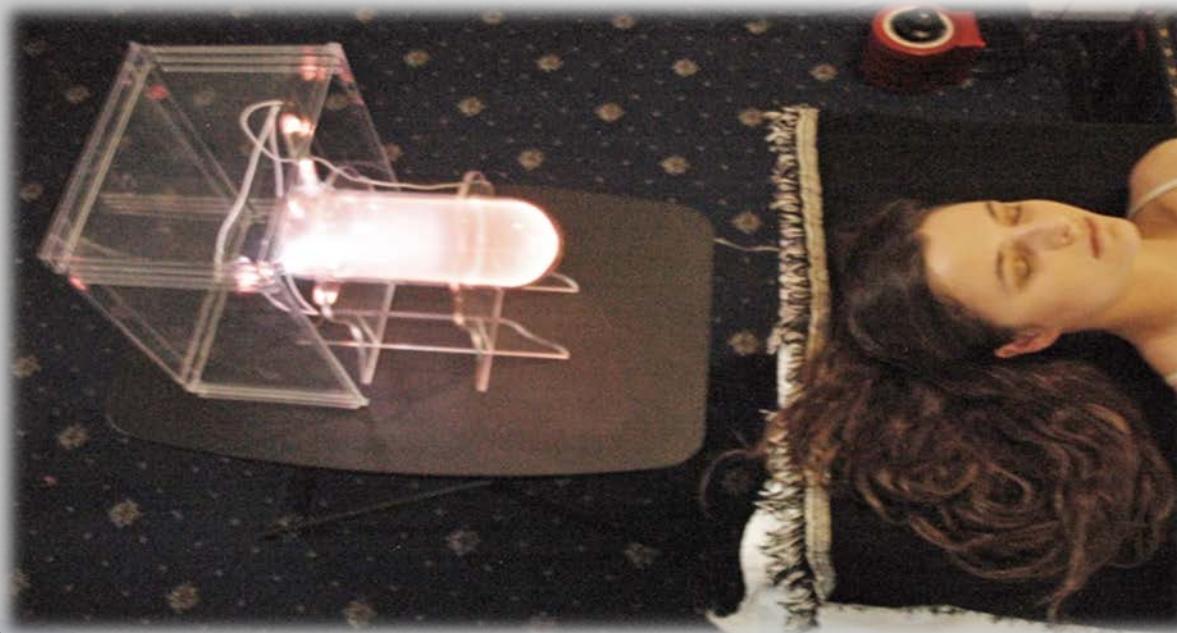

The client will lie on the healing bed between two high voltage lamps. This high frequency is run through your body for healing for 3 minutes initially at 35 – 45 V and then you can build up to 9 – 13 minutes on 50 V.

Countless case histories have proven that the right mixture of signature frequencies can effect the human body: including responses to viruses and parasites, immune deficiencies, increased metabolism, heart rate variability, reduction of inflammation, treatment of degenerative diseases, and natural pain relief.

The theraphi aims to do this and much more. For more information on this exciting technology go to www.energywellnesspartners.com

The Priore device was essentially a high voltage – high frequency light bulb widely proven at that time to treat cancer, the issue was the pure principle was not understood. Thanks to Dan Winter's new equation on his book cover: "Origins of Biologic Negentropy", the Priore device (originally shown at that time to be a well proven cancer and disease solution) is now again in a promising testing phase as the Theraphi!

The frequency signature Priore used is substantially predicted on the Dan Winter's new book cover-which is how Theraphi team optimized the new prototype. They used Dan Winter's discovery of the previously unknown pure principle- which is that perfected broad spectral phase conjugation becomes negentropic and regenerative. This was proven in optics. Theraphi takes this principle even more broad spectral and thus more powerful than ever before.

Dan Winter, trailblazer in phase conjugation, introduces the new Plasma Healing Device pioneered by Priore which is now understood by science and which is now able to be reproduced with today's technology for thousands not millions. It will mean a revolution in Health.

The Theraphi produces a plasma light and powerful bio-active field. Precise electromagnetic frequencies derived from hydrogen and phi-ratio harmonics are modulated and pass through a unique mixture of noble gases. The resulting super coherent plasma wave field restores order to the body's cellular regenerative system, reversing the entropy of the disease process. Thus using Theraphi technology has the ability to influence – pain reduction, longevity, enhancement of the immune system to reduce healing times, and improved circulation. It has been proven to be safe to use. Come try your first session today.
