Quantum Space Medicine

The Quantum-Space Medicine procedures devitalizes the pathogenic microorganisms and this is the reason why these procedures do not cause any discomfort or harm to the human body. After the pathogenic microorganisms are being destroyed and eliminated, the human body fully recovers its vitality.

This method does not affect the cells of the human body, but protects them.

Quantum Space Medicine

Quantum Space Medicine:

Quantum Space Medicine is the medicine of the future. This is as Integrative Medicine based on quantum physics. Quantum physics explains the nature and behavior of matter and energy on the atomic and subatomic level. It explains from the smallest particle how the entire universe works. The scientific discoveries fundamentally change how we perceive our entire reality. From the fastest computers in the world to your everyday grocery store scanner, the application of quantum physics is at the leading edge of modern technology today. The language of quantum physics helps us to better understand integrative medicine. Various alternative healing modalities from both ancient and modern medical traditions become as logical, elegant, and satisfying as the interpretation of quantum physics itself.

Quantum Space Medicine

Quantum physics proposes consciousness as the fabric of reality. It is a model for a deeper understanding of the universe, and consequently, the art of healing. With an in-depth knowledge of the gifts of quantum physics to medicine, we are better equipped to prevent disease and promote optimal health for every human being in the world. One of the great challenges within the current model of medicine is to break free of the traditional linear ways of thinking. Medicine has stepped into a new paradigm, in that, energy and consciousness IS the medicine.

Quantum Space Medicine

Using the principles of quantum physics to explain how healing takes place, the quantum space medicine technologies transformed by a vision of achieving full potentiality for health and an expanded understanding of our reality, the field and consciousness itself. Merging quantum physics with various modalities of integrative medicine creates solutions that address imbalances in the body, mind, and spirit, to achieve optimal health. This offers our customers a better understanding of health and disease and how the body, mind, and subtle energies all need to be addressed for optimal healing and to add the missing pieces of the puzzle of how healing occurs. We are creating the future model of medicine and healthcare, using quantum space medicine which integrates bioresonant scanning and feedback, detoxification, plasma technology, pulsed frequency, and oxygen therapy. The Quantum-Space Medicine procedure devitalizes the pathogenic microorganisms and this is the reason why these procedures do not cause any discomfort or harm to the human body. After the pathogenic microorganisms are being destroyed and eliminated, the human body fully recovers its vitality. This method does not affect the cells of the human body, but protects them.

Quantum Space Medicine

Step 1: Test the body for pathogenic microorganisms:

The test is done using a quantum frequency scanner. It takes up to two hours to scan the body for the following categories: parasites, worms, viruses, fungi, bacteria and molds. We can also test the body for a particular pathogenic microorganism only.

After the test, the results are compared within the database that contains over 2000 known pathogenic microorganisms. Based on the results we decide the treatment.

Quantum Space Medicine

Step 2: Destroying and removing the pathogenic microorganisms

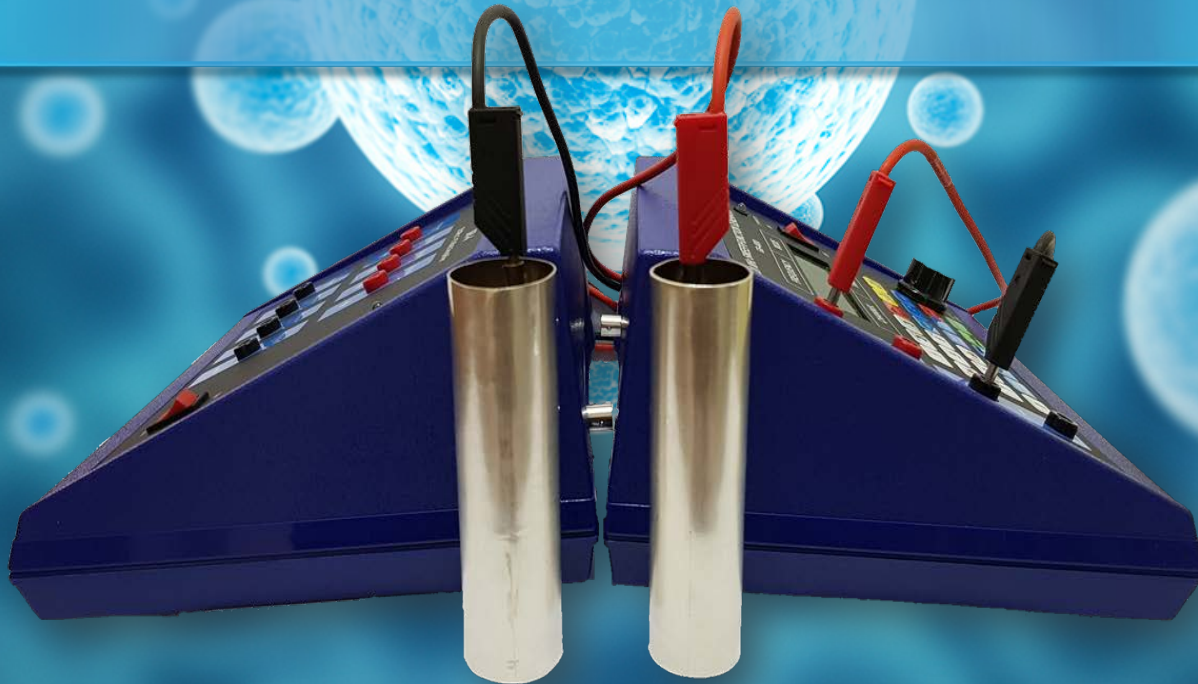

Each pathogenic microorganism has a specific frequency. When this frequency is produced by a quantum frequency generator, the outer membrane of that specific microorganism is shattered and it dies. The dead corpses of the pathogenic microorganisms are eliminated by the body and then the immune system starts to function properly.

When functioning 100% , the immune system is guaranteed to maintain the health and well being of the human body.

Quantum Space Medicine

Service 1: Parasites Cleaning:

One of the cleaning procedures which we call “de-parasitation” is cleaning the parasites and this is one of the most requested treatments. During this procedure we eliminate the most known parasites from the body. The purpose of this procedure is to help the immune system recover and work properly. It is a 3 step procedure.

Quantum Space Medicine

Service 2: Complete Cleaning

This is the most advanced cleaning process that we provide and it may take between 3 and 5 days. Based on the scanning test, we configure the treatment that will address all the known parasites, worms, viruses, fungi, bacteria and molds. The final purpose is to clean the whole body.

Complete Scan

The first step is to scan the whole body to identify the pathogenic microorganisms.

Internal Factors

After we eliminate the pathogenic microorganisms we address the illnesses found inside the body.

External Factors

During the session we address all the exterior pathogenic microorganisms that affected the body.

Complete Recovery

We monitor the condition during the entire procedure to ensure a full recovery.

Quantum Space Medicine

Service 3: Plasma Field

This 9m field radius addresses the entire body in a non-invasive approach. It not only targets the pathogenic microorganisms but helps bring the entire body to a level of homeostasis – strengthening the immune system, detoxing, cleaning the organs, increasing vital force, reducing stress/inflammation and creating an ideal non-acid environment inside and outside of the body for optimal health and beneficial change.

We use a precise quantum generator to deliver frequencies safely to your entire body at the deepest cellular level.

Quantum Space Medicine

Service 4: Photon Light

In case of external wounds, skin ulcers, and burns, as NASA stated, the Photon Light boosts the energy inside the cells to accelerate healing. This is a non-invasive method designed to help the cell to recover. The exposure of pathogenic microorganisms to Photon Light devitalize and destroys them allowing the immune system to recover.

Quantum Space Medicine

Service 5: Frequency Imprinting Field

Every time two or more energy lines cross each other, they create a small, energetic vortex. This simple, dynamic law of physics is the foundation for the Frequency Imprinting Field. This technology incorporates the latest known scalar wave, zero point, vortex science, and precise golden ratio mathematics based on ancient and sacred geometrical and hyper-dimensional application of frequencies.

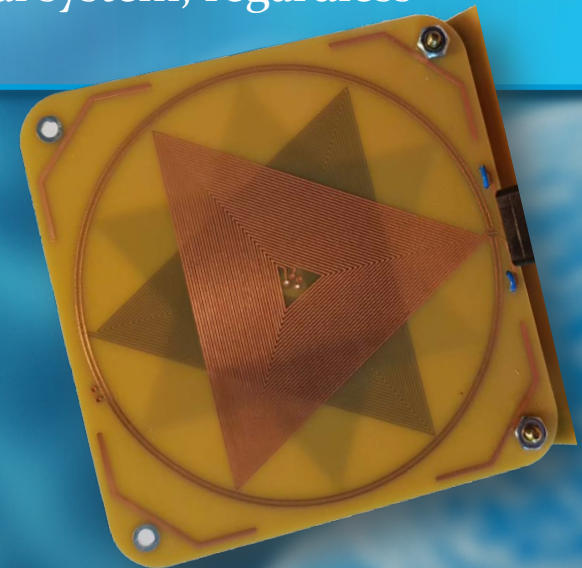

We use a precise quantum generator to deliver frequencies safely to your entire body at the deepest cellular level.

Quantum Space Medicine

Service 6: QEG Non-Local Frequencies

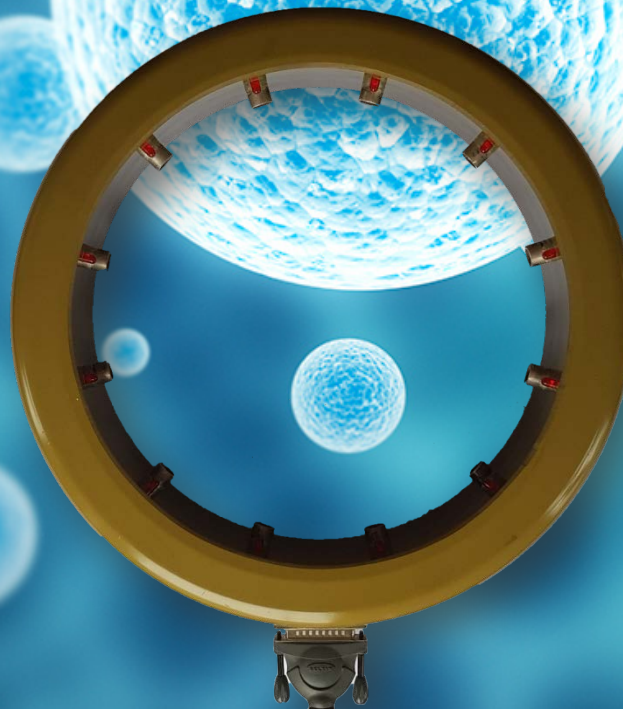

During the early 1900's, Albert Einstein developed his theories regarding Special Relativity, and also theorized that some particle behavior could not be explained by current scientific knowledge. Einstein called this effect "Spooky Action at a Distance" because it appeared that if any DNA part of a single system was removed, from that system, and placed in a different location, any action performed, and in our case applying frequencies on that removed part, the same action will also be instantaneously performed on the original system, regardless of distance.

Quantum Space Medicine

Service 7: Radionic Super-Organite Energy

The shortest distance between two points in the universe is a structural link. Throughout human history Chi Energy or Life Force was used for many purposes and therefore we can use this Chi Energy to boost the cell energy and help it recover.

Quantum Space Medicine

Service 8: Charge the Chakras

The human body has 7 major energetic centers that are called chakras. We can see the chakra's energy by using a kirlian device that captures the phenomenon of electrical coronal discharges. Each chakra corresponds with a part of our body including their corresponding organs. If we devitalize the organs, by having a stressful life style, we are allowing illnesses to appear in our body. In this case we need to charge the chakras in order to have an optimal energetic level.

Quantum Space Medicine

Service 9: Ozone Therapy

Ozone (O_3) gas discovered in the mid-nineteenth century is a molecule consisting of three atoms of oxygen in a dynamically unstable structure due to the presence of mesomeric states. Ozone therapy has been utilized and heavily studied for more than a century. Its effects are proven, consistent, safe and with minimal and preventable side effects. Medical O_3 is used to disinfect and treat disease. Mechanism of actions is by inactivation of bacteria, viruses, fungi, yeast and protozoa, stimulating the metabolism's oxygen and activating the immune system.

Tachyon Chambers & Technology

Tachyon Chambers & Technology

Tachyon Chambers & Tachyon Technology:

Tachyons are subatomic particles that travel faster than light. They are particles that infuse physical matter with spiritual light. The process of collecting Tachyon Particles is a technological process that infuses physical matter with an increased quantity of tachyons and permanently changes quantum properties of atomic nuclei which compose that matter. Although the chemical composition is not altered, the change occurs on a subatomic level. Because it decreases entropy of physical matter it may slow the aging process and strengthen the immune system.

Tachyon Chambers & Technology

Tachyon Health Benefits:

Tachyon offers a multitude of health benefits. Tachyon restores chakra and meridians to a "Healthy Zero Point". Tachyon accelerates the body's capacity to heal from illness or disease. Tachyon may increase physical and mental stamina so you feel rejuvenated. Tachyon profoundly affects the DNA by regenerating and activating the higher DNA strands that are currently coming online in ascending humans. Tachyon promotes pain relief. Assists body in mild but needed detoxification. Tachyon is wonderful with customers suffering from: Anxiety; ADD; ADHD; Autism; Circulation; Diabetes; Carpal Tunnel; body/back pains; difficult sleeping quality sleep, and many other body and health ailments.

Tachyon Spiritual Benefits:

Tachyon profoundly promotes spiritual development and in many cases have quickly opened up spiritual channels (3rd Eye). Tachyon heightens spiritual and psychic awareness and helps to gently access all emotional memory blocks for mental and emotional release. Tachyon deepens the meditation experience. Tachyon assists in developing greater visual and audio abilities psychically. Tachyon assists in out of body experiences, in a positive, pleasant manner. The Tachyon consciousness works in perfect alignment with our customers' own particular mission and accelerates a person's ability to align with their purpose.

Tachyon Manifestation Benefits:

Tachyon Living Products amplify our customers' desired goals and intentions.

Tachyon works beautifully and harmoniously by amplifying crystals and gemstones natural attributes as well as those that have been imbued. A customer can use Tachyon during healing sessions to amplify the results, to clear all resistance and to amplify the energy of the healing being used. Our customers can use Tachyon to amplify and 'announce' their goals.

PEMF (Pulsed Electromagnetic Frequency)

ACCELERATED REPAIR OF
BONE & SOFT TISSUES

IMPROVED CIRCULATION

REDUCTION OF PAIN
& INFLAMMATION

IMPROVED BLOOD &
TISSUE OXYGENATION

MUSCLE RELAXATION

IMPROVED ENERGY

IMPROVED BALANCE OF THE
IMMUNE SYSTEMS

STIMULATION OF RNA & DNA

IMPROVED BLOOD PRESSURE &
CHOLESTEROL LEVELS

PROMOTING WELLNESS FOR
CANCER CLIENTS*

*FDA CLEARANCE FOR BRAIN CANCER, HOWEVER WE
PROMOTE WELLNESS FOR ALL CANCERS

PEMF (Pulsed Electromagnetic Frequency)

Pulsed Electromagnetic Frequency Therapy:

Pulsed Electromagnetic Field Therapy (PEMF) is a regenerative technique that is used to stimulate cellular repair. Clinical evidence shows that PEMF therapy reduces pain associated with trauma from accidents, sports injuries, surgeries and burns as well as from disease and degeneration. PEMF therapy improves these conditions in many different concurrent ways including mechanical, chemical, electrical and magnetic processes within the cells of the body.

Perhaps the easiest way to understand PEMF is to think in terms of each cell in your body as if it were a little battery. Like with any battery, sometimes your cells become tired and worn, whether due to age, stress, overuse, or damage, making it more difficult for them to fight off any type of potentially damaging force or illness.

Through PEMF therapy, your batteries (i.e. your cells) essentially become recharged. The energy supplied via PEMF waves gives them the energy they need to ward off whatever is threatening them, whether it's a trauma or disease-based threat. This makes it easier for your patient's body to restore its health naturally, simply by using the electrical currents and impulses that are already interacting within and throughout their cells. In essence, high-powered PEMF is like a "battery recharger" for your depleted cells.

PEMF (Pulsed Electromagnetic Frequency)

Pulsed Electromagnetic Frequency Therapy:

Benefits of PEMF: Reduction of pain and inflammation; improved energy; improved circulation; improved blood and tissue oxygenation; accelerated repair of bone and soft tissues; muscle relaxation; improved blood pressure and cholesterol levels; improved balance of the immune systems; stimulation of RNA and DNA; promoting wellness for Cancer Clients (*FDA has given clearance for Brain Cancer treatment, however we promote wellness for all cancers.) PEMF can be utilized for wellness and healing modalities for both humans and animals, visit our Pets and Animals page to learn more about PEMF and Animals.

RIFE (Electromagnetic Frequency)

RIFE Therapy:

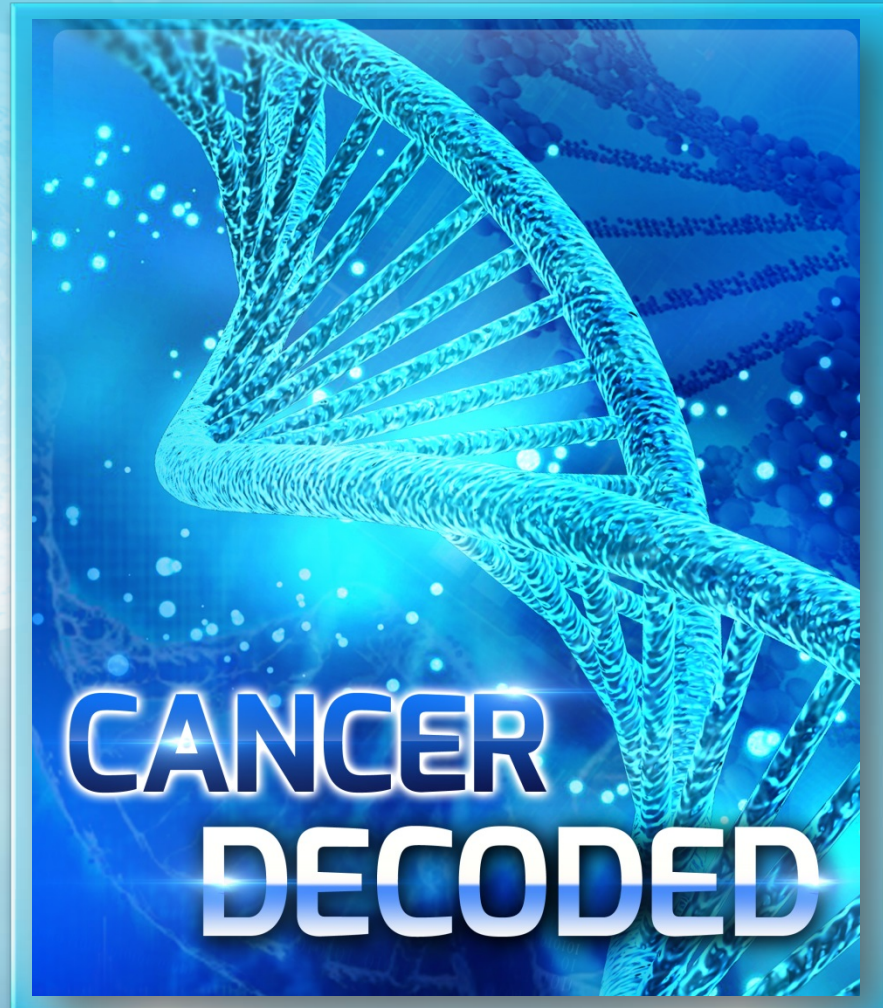

A Rife Machine uses the principles of Royal Rife, a brilliant scientist who lived during the last century. He discovered that micro-organisms can be destroyed using frequencies. He performed thousands of experiments, each proving that cancer has a viral cause, and that damaging this virus usually resulted in a cure. As a final test, the University of Southern California appointed a Special Medical Research Committee to bring terminal cancer patients from Pasadena County Hospital to a San Diego lab and clinic for treatment. The team included doctors and pathologists assigned to examine cadavers and any patients still alive in 90 days. After 90 days, the Committee found that 86.5% of the patients had been cured. The treatment was then adjusted and the remaining patients also responded within four weeks. The total recovery rate was 100%.

RIFE (Electromagnetic Frequency)

RIFE Therapy:

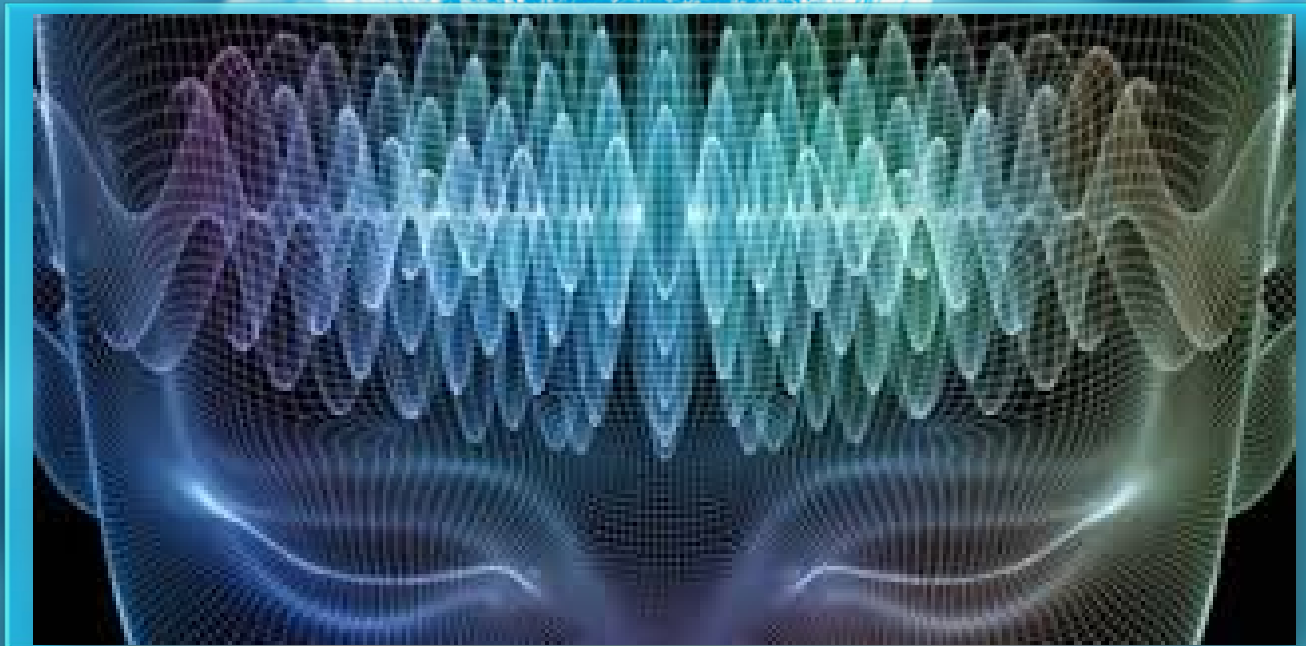

Rife machines work on the principle of sympathetic resonance, which states that if there are two similar objects and one of them is vibrating, the other will begin to vibrate as well, even if they are not touching. In the same way that a sound wave can induce resonance in a crystal glass and ultra-sound can be used to destroy gallstones, Dr. Rife's instrument uses sympathetic resonance to physically vibrate the cells of the parasite resulting in possible elimination. Vibration between two objects can be seen in everyday life, from a tuning fork to a guitar string. The destructive capabilities of resonance have been widely demonstrated, for example when an opera singer hits a particular note and breaks a glass. In this instance the musical tone sets the glass in motion, and as the motion builds the glass shatters. The pulsed wave used in the Rife system produces a mechanical vibration, whereby the low amplitude input leads to a large amplitude vibration in the target. If the induced resonant vibration is intense enough, the target cell, tissue, or molecule will be destroyed.

RIFE (Electromagnetic Frequency)

RIFE Therapy:

Remarkably, Rife machines have been around for almost 100 years. These Rife machines had astonishing successes. In 1931, 44 top doctors celebrated “The End of All Disease”. Unfortunately, “the end of disease” did not fit the business model of other companies who preferred to “manage disease” instead. It makes better business sense to have a regular income. So the early Rife machines and documentation were destroyed. Recently, there has been a revival of interest. People are rediscovering the effectiveness of Rife treatments. They are learning to take control over their own health, and end the spiral of drug dependency.

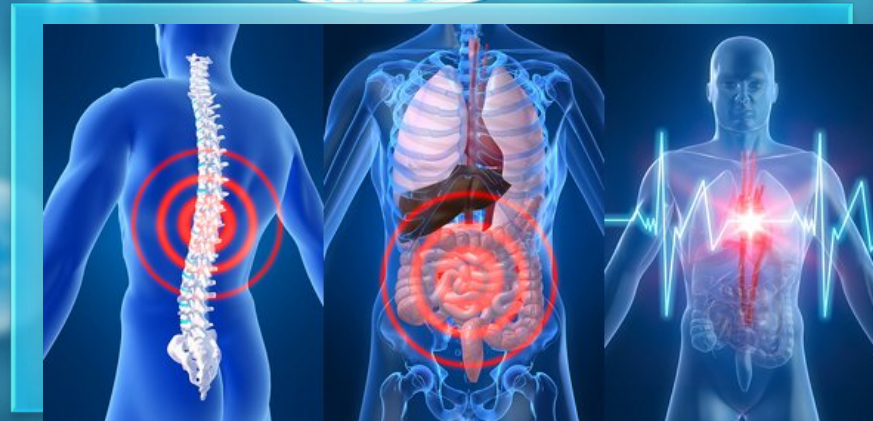

Bioresonant Scanning & Feedback

Bioresonant Scanning & Feedback

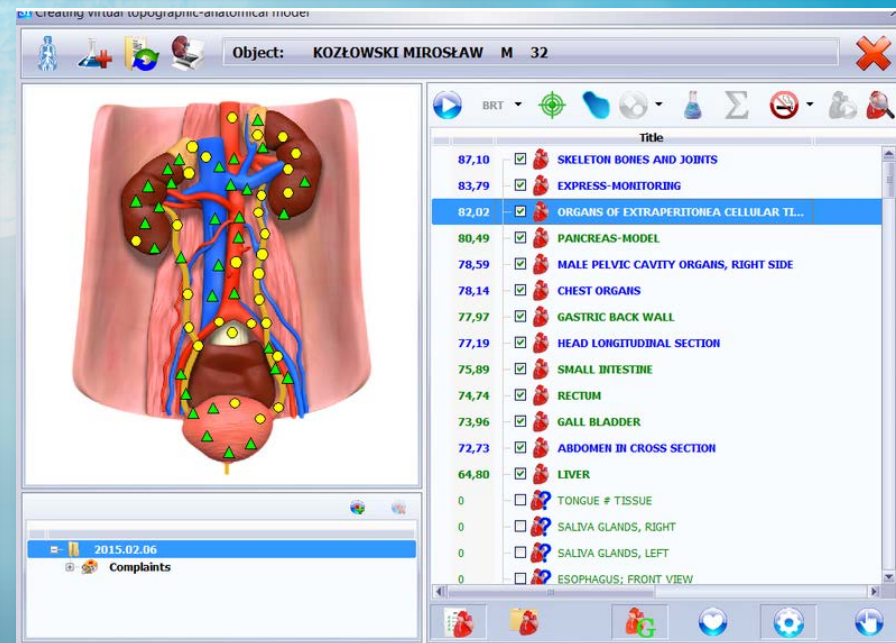

Our world sees a never-ending advance in technology and communication and transportation, there are prepared foods that were unheard-of a generation ago and we are exposed on a daily basis to scores of chemicals, low-level radiation, toxins and pharmaceutical traces in foods and even drinking water. Our bodies are designed to flush and detoxify themselves, but sometimes the body's systems are overwhelmed by this task.

This can result in fatigue, inflammation, allergies and disease – and bioresonance therapy can be just the thing to identify these problems and begin to address them. It goes beyond treating symptoms – instead, it reactivates the body's ability to self-heal and purge itself of toxins and harmful substances. Bioresonance allergy tests and other bioresonance therapies have been shown to have positive benefits and outcomes, and have resulted in thousands of satisfied patients worldwide.

Bioresonant Scanning & Feedback

This Bioresonant process starts by testing and destroying the pathogenic microorganisms from the human body. Using the high-tech devices F-SCAN, we can accurately detect the microbes, molds, heavy metals, bacteria, parasites, and viruses which cause serious diseases in the physical body. After destroying the pathogenic microorganisms, the body recovers its vitality entirely and the immune system regains its normal functioning, reducing the risk of developing diseases. This technology is not invasive and it does not cause pain.

Bioresonant Scanning & Feedback

Bioresonant Benefits: Maximal individualization of treatment with the appliance of the patient's energy only; Continuous automatic adjustment of therapy from one moment to another depending on the current condition of the patient; The universality of the approach and an overdose impossibility allow us to apply the method in all age groups and at different pathological states; Modern software which allows the testing and the subsequent treatment of: allergens (food, household, animal dander, plant pollens, food supplements, etc., 366 substances in all); fungoid agent; environmental toxins; Dental products (material); nozodes are "products of illnesses" – potentiated in homeopathic dilution of blood, lymph, urine, discharge of pathologically changed organs and tissues, toxins of pathogenic microorganisms; micro-elements, vitamins; Homeopathic classical remedies; homeopathic organo-remedies; and chemical elements.

Bioresonant Scanning & Feedback

The latest researches, carried in many laboratories and centers in USA, Germany, Russia, Japan has shown, that cellules, tissues and organs are such structures that have strict bioelectrical characteristics. It was experimentally proved, that this characteristics could fast and deeply change during the reign of pathologic processes. Electromagnetic fields and electrons involve energy, information and charge. Being a sort of "fuel" for all living processes, electromagnetic fields maintain normal physiologic state of cellules - physiologic equilibration.

Vital processes are pictured in well-known electrocardiogram, electroencephalogram and electromyogram. But beginning, latent deep changes of human organism, changes of cellules can be fixed and deciphered only with the newest diagnostic method - energy-informational diagnostic - Nonlinear Diagnosis System. This is one of the latest medical diagnostic developments that allows us fix and show the slightest changes of the human's organism structure in the form of cartograms and diagrams. Nonlinear Diagnosis System based on research of electromagnetic fields of living beings.

Bioresonant Scanning & Feedback

Each pathological process, causative agent, each deviation of homeostasis has its individual strict energetic spectrum. By a command of the program IMAGO device *Sensitiv Imago* reads in the values of faint electromagnetic field of a patient. According to the plan of the examination, depending on specific organ, program *Sensitiv Imago* aligns the device on frequency of electromagnetic impulses of this organ. These impulses are taken from an examined person without any harm. Device sends data to the program *Sensitiv Imago*, and the program *Sensitiv Imago* processes it and shows results.

The database of device contains etalons of all pathological processes. During the examination complex takes from the organism high number of electromagnetic scales, which display information about all processes taking place in the organism. Device compares scales with the etalons from the database, and in case of agreement comes the bio-resonance effect. Device fixes it and shows on a screen.

Bioresonant Scanning & Feedback

This process is very alike reading bar codes in the supermarket. "Bar code" is similar to an electromagnetic scale of any process in the organism.

Such technology gives possibility to get full information about the health of a patient, in view of age-dependent, interlabial and other factors, and localize any early presentations of diseases, what is impossible when we use any of other present-day diagnostic methods, which can detect only already formed pathologic process. In acupuncture, diagnostic (for example, Foley method) energetic potential of organs and systems of human organism is gagging through the bioactive markings, which show the information about organs indirectly and do not show the reason of such condition of organs.

Bioresonant Scanning & Feedback

Bioresonance therapy is a form of alternative medicine belonging to the field of Electromagnetic therapy, invented in Germany in 1977 by Franz Morell and his son-in-law, engineer Erich Raschebut, having little acceptance elsewhere, particularly outside of Europe. Initially they marketed it as "MORA-Therapy" - named after themselves (MOrell RAsche). Some of the machines contain an electronic circuit measuring skin-resistance, akin to the E-Meter used by Scientology, which the Bio-resonance creators sought to improve. (Franz Morell had links with Scientology.) Bio-resonance has nothing in common with electroacupuncture concepts.

Mode of Operation

Descriptions are obscure, possibly on purpose. Practitioners usually apply electrodes, linked to a box, to the patient's skin. According to the manufacturer of these devices, they emit alternating currents which are healing. The manufacturers describe cells as objects having a natural resonance (i.e. *Bioresonance*). Such frequencies are not viewed as efficacious by modern medicine.

Due to the electrical interference of the signals generated by everyday equipment and the range of frequencies utilized, the response is sometimes read through an extended period, in order to average it and to increase the accuracy of the results. In some of these devices a modern signal processing technique, usually PC-based, is able to analyze the multiple parameters of the response and interpret the results. The analyst is then supposedly able to make an assessment/summary of the physical and mental health of the patient.

Bioresonant Scanning & Feedback

Creating virtual topographic-anatomical model

Object: KOZŁOWSKI MIROŚŁAW M 32

The image shows a 3D anatomical model of the human torso, focusing on the abdominal and thoracic regions. The model is rendered in a semi-transparent style, revealing internal organs such as the lungs, heart, stomach, and intestines. A grid of green triangles and yellow circles is overlaid on the model, representing the bioresonant scanning points. The interface includes a toolbar with various icons for navigation and analysis, and a list of anatomical components on the right side.

Complaints

Bioresonant Scanning & Feedback

Practitioners also say they can treat disease using this therapy, claiming they can stimulate a change of *Bioresonance* in the cells, reversing the change caused by the disease. The devices would need to be able to isolate and pinpoint pathogens' responses from the mixture of responses the device receives via the electrodes. Transmitting these transformed signals over the same electrodes is claimed to generate healing signals that have the curative effect. With this method of diagnosis and treatment, practitioners claim to be able to detect and cure a variety of diseases and addictions without drugs. The given mode of operation (pathogenic signals in opposition to healthy ones) is linked to similar concepts in Traditional Chinese Medicine, especially acupuncture.

Detection and Healing

Examples of symptoms or features that practitioners claim to detect:

- ❖ Energy level / vitamin deficiencies / cell oxygenation
- ❖ Mental health / stress / adrenal activity
- ❖ Hormonal disorders / immunity response

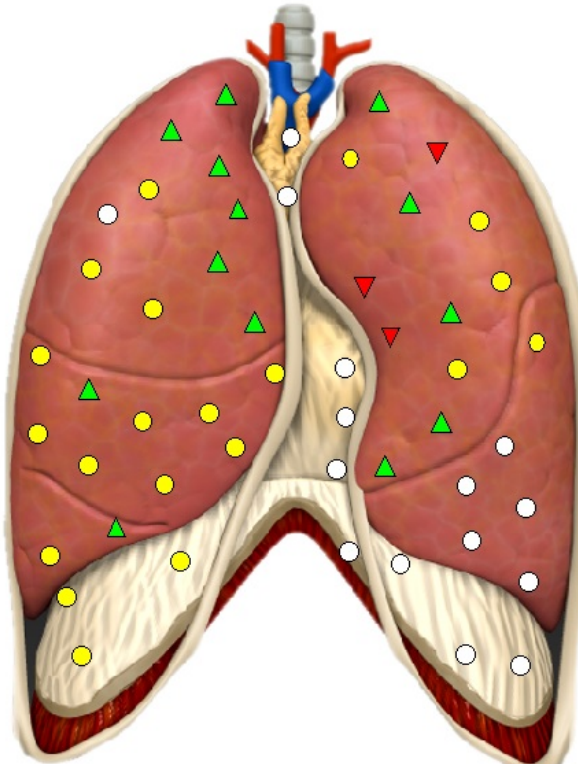

Examples of diseases allegedly healable with this method:

- ❖ Allergies
- ❖ Sleep disorders
- ❖ Chronic pain
- ❖ Chronic Fatigue Syndrome (CFS)
- ❖ Stress
- ❖ Hormonal disorders
- ❖ Psychosomatic illness. A placebo-controlled study was conducted, but with a sample of only twenty people.

Bioresonant Scanning & Feedback

How bioresonance works

Bioenergy resonance or *bio-resonance* is the field of Energetic Medicine that detects and works with electromagnetic frequency information generated by the body. Bio refers to a living organism and resonance means 'to vibrate in harmony with'.

Our body cells generate tiny electrical impulses that interact or communicate with neighboring cells. Cells continuously emit and respond to these signals. These signals are in the form of oscillations or vibrations and the oscillation pattern has been found to differ between a healthy person and a sick person. Oscillations from a cell burdened with foreign substances such as bacteria, toxins, etc., also has a different structure from that of a healthy cell.

Sampling Micro-magnetic Oscillations

All cells in the body emit minute electrical signals and these signals are used as a means of communication between cells. If a cell is in a good health, its signal will be harmonious and resonate in a free manner with other cells in the body. If a pathogen (toxin, virus, parasites, etc.) attacks a cell then the signal coming from the cell becomes distorted. The signal profiles are measured via electrodes attached to the patient's body.

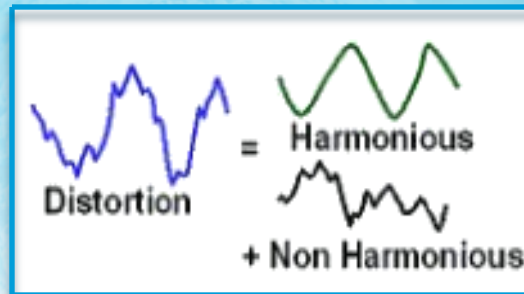

Bioresonant Scanning & Feedback

Bioresonant Scanning & Feedback

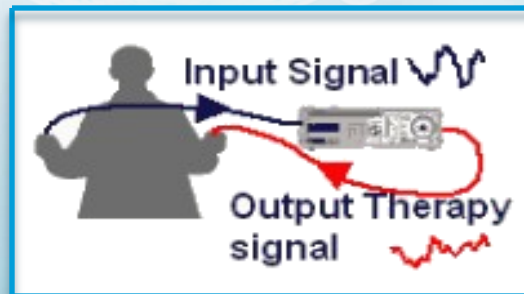

Processing the Tapped Body Information.

Distorted signals coming from damaged cells consist of harmonious and nonharmonious oscillations. A so-called molecular-absorption-circuit within the *bio-resonance* machine filters out the distorted part of the signal.

Bioresonance Therapy.

The nonharmonious oscillations are inverted and returned back to the body as therapeutically effective information. The inverted oscillations cancel out the distorted signals and stimulate the cells to oscillate in a healthy mode.

Bioresonance simulates body self-healing, produces NO side effects and represents the next stage in the evolution of health care.

Bioresonant Scanning & Feedback

Bioresonance Therapy

Bioresonant Scanning & Feedback

Chemical medicines may cure the symptoms of the disease, but do not treat its cause. Sometimes they are necessary, but only nature can make a complete recovery. The human body is a complicated self-regulating biological system, which radiates weak electromagnetic oscillations as everything in nature. These oscillations regulate all the levels of the human organism (sub cellular, cellular, organic, systemic) and keeps it in a healthy condition.

When the processes of self-regulation are violated in the organism there form and accumulate “incorrect”, pathological electromagnetic oscillations that lead to the development of different illnesses. Nowadays the method of *bioresonance* therapy (*Frequency Compensation*) is the only single fundamentally new method of non-drug treatment and prophylaxis.

Frequency Compensation – is a method of treatment, which works with the help of the patient’s own electromagnetic oscillations. There are three principals at the heart of this method:

- ❖ Usage of the personal electromagnetic oscillations
- ❖ Separation of a patient’s electromagnetic oscillations into physiological (“healthy”) and pathological (“unhealthy”)
- ❖ Inversion and suppression of the pathological oscillations. Restoring and strengthening of the physiological oscillations.

Bioresonant Scanning & Feedback

Frequency Compensation's curative effect is brought about by the stimulation of the host's defenses, excretion of toxins and toxic metabolic products, deactivation of infections, tissue regeneration, and stimulation of restorative processes in an organism.

Thanks to the universal approach to treatment of various diseases and the maximal individualization of treatment, *Frequency Compensation* is indicated for an immense variety of chronic skin problems, blackhead eruptions, warts, loss of hair, endocrine, hormonal disorders (frustration), migraines, weakened immunity system, osteoporosis, arthritis, psychosomatic over fatigue and many others.

Frequency Compensation limits to a short time drug treatment, and afterwards avoids completely the usage of chemicals.

Frequency Compensation is a synthesis of modern achievements of energy informative medicine, biophysics and computer technologies. It is widely used in Germany, the USA, Austria, Switzerland, Finland, Hungary.

Bioresonant Scanning & Feedback

What is the advantage of this therapy?

- ❖ Maximal individualization of treatment with the appliance of the patient's energy only.
- ❖ Continuous automatic adjustment of therapy from one moment to another depending on the current condition of the patient
- ❖ The universality of the approach and an overdose impossibility allow us to apply the method in all age groups and at different pathological states.

Modern software which allows the testing and the subsequent treatment of:

- ❖ Allergens (food, household, dandruff of animals, pollen of plants, food supplements, etc., 366 substances in all), at the same time frequency-testing of an allergy has a huge advantage as the patient is not provoked by the tested allergen; on the contrary, frequency-testing affects the discharge of toxins in an organism by means of inverting the information given by the allergen or toxin.
- ❖ Fungoid agent
- ❖ Environmental toxins
- ❖ Dental products (material)
- ❖ Nozodes are “products of illnesses”-» potentiated in homoeopathic dilution of blood, lymph, urine, discharge of pathologically changed organs and tissues, toxins of pathogenic microorganisms, even the simplest microorganisms.
- ❖ Micro elements, vitamins.
- ❖ Homoeopathic classical remedies
- ❖ Homoeopathic organoremedies
- ❖ Chemical elements

Bioresonant Scanning & Feedback

What is the treatment and how does it begin?

Frequency Compensation begins with the detailed anamnesis and, in most cases, from basic therapy during which the organism as a whole is harmonized. Basic therapy can also be called opening therapy since after its immediate applications the real condition of the patient's health is revealed, and in the process minor disorders and blockades, and superficial symptoms are eliminated.

The purpose of basic therapy is actually to correct an organism's peculiar electromagnetic oscillations and to restore regulation forces in the patient, thereby, purposefully beginning the recovery processes. The second stage is directed to pathological process-special therapy.

During therapy physiological oscillations will be optimally strengthened, and heavy (loading) harmful electromagnetic oscillations will be inverted, i.e. transformed to their exact mirror reflection, and in such a way will be sent back. Thus, the pathological information, which is present in an organism, during sessions of therapy, slackens and disappears. For all that, the patient receives treatment by means of his own fluctuations alone. Signals from secondary sources do not come into an organism during any treatment phases.

Bioresonant Scanning & Feedback

Why are detoxification measures necessary during treatment?

During the first *Frequency Compensation*, stages toxic substances of various origins are released into the blood where they gradually accumulate in mesenchyme and under usual conditions are not excreted out of an organism.

That is why during the whole treatment period it is necessary to take into consideration the detoxification of an organism. First, it is the ample drinking of pure, brackish water. Besides an obligatory process of excretion (cleaning an organism from toxins) is a daily shower or visit to a sauna, and timely bowel movements.

Bioresonant Scanning & Feedback

What are the priority areas of *Frequency Compensation* application?

The range of opportunities of this method application is enormously extended by the universality of the approach and the maximally individualized treatment in each specific case. *Frequency Compensation* is the method of a choice when a full effect is not achieved by means of standard therapy. This happens first in the cases of: chronic long-term diseases of the bronchopulmonary system, cardiovascular system, a gastrointestinal tract, recurrent painful syndromes, deficiency of the immune system, trophic disorders, and various functional imbalances.

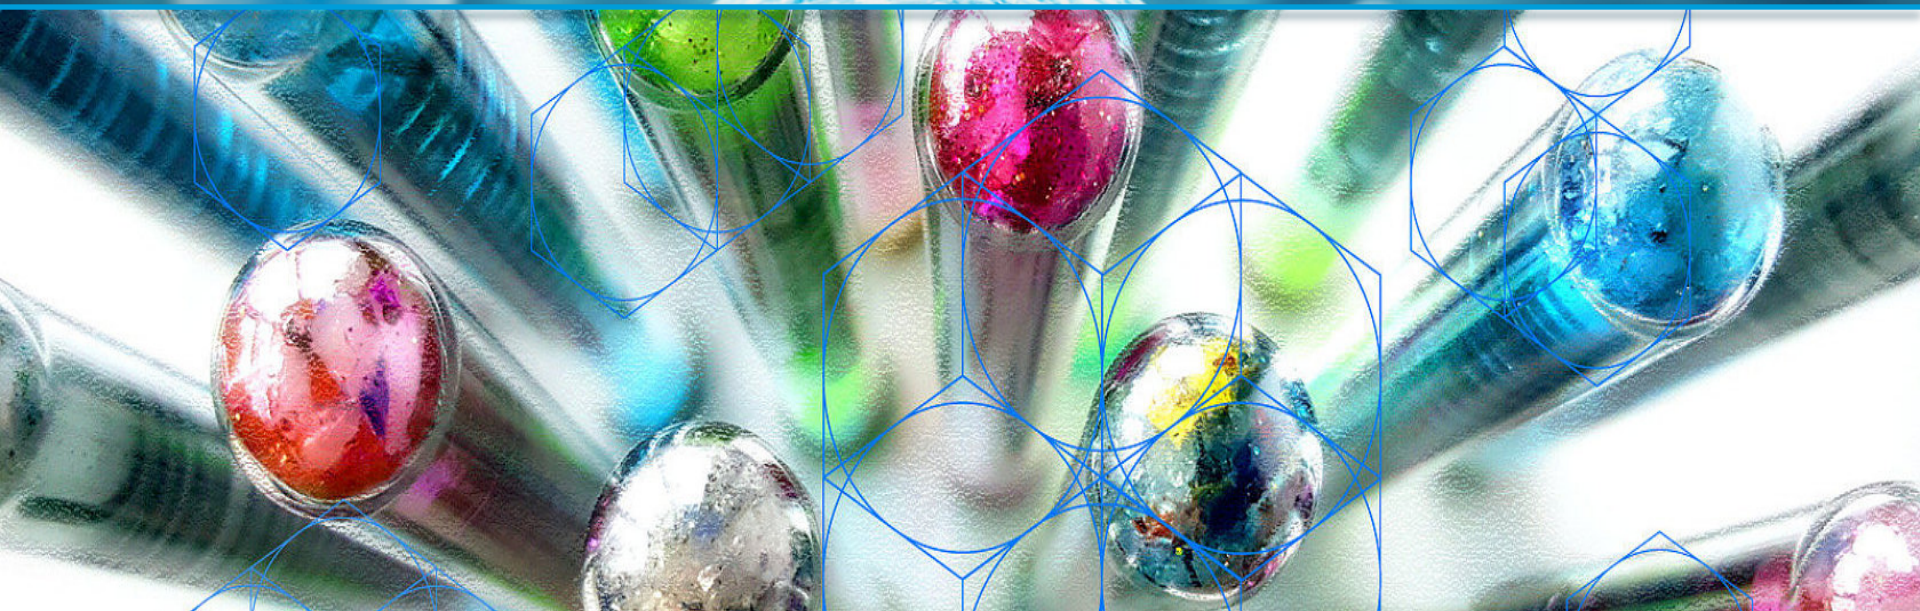

The method is very effective at treatment of acute and chronic allergy processes, intolerance of foodstuff, and acute, chronic intoxications caused by environmental substances. Thus, Morrel's method of allergy testing has this huge advantage, that the patient is not provoked by allergen; on the contrary, allergy *Frequency-TESTING* has a relieving influence on the organism, as a result of inverting the information given by the allergen.

During treatment of an allergy, the physiological adaptation of an organism's signal from the moment by another therapy moment is used. The results of the therapy are frequently amazing owing to such an approach, the exact (definition, determination) diagnosis of causal disease factors and the synergetic effect of a two-channel technique. *Frequency-THERAPY* is well combined with the intake of medicines and with other physiotherapeutic methods of treatment if necessary.

Bioresonant Scanning & Feedback

Plasma Therapy

Plasma Therapy

Plasma Field Therapy:

This 9m field radius addresses the entire body in a non-invasive approach. It not only targets the pathogenic microorganisms but helps bring the entire body to a level of homeostasis – strengthening the immune system, detoxing, cleaning the organs, increasing vital force, reducing stress/inflammation and creating an ideal non-acid environment inside and outside of the body for optimal health and beneficial change. The spectrum of plasma frequencies encountered will act on the physical, emotional, mental and higher bodies of the patient and help to balance and correct any deviations to recreate a fully charged and healthful state, restoring perfect charge distribution and compression in the cells, DNA, organs and organisms. We use a precise quantum generator to deliver frequencies safely to your entire body at the deepest cellular level.

Plasma Therapy

Plasma Field Therapy:

As with any balancing system that uses plasmas, people also experience the healing at the emotional and higher levels, enabling a personal evolution to occur at the same time as just the easing of perhaps physical symptoms. Since dis-ease originates from disquiet in the emotional or mental, or higher, bodies then we see that even the causes are usually resolved. Coherent wave forms and charge distribution are fractal and so the effects are compressed right through the biological system.

Plasma Therapy

Plasma Field Therapy:

We experience life as a reflection of our natural frequency and state of being, and so as these are modified and balanced by exposure to plasmatic fields people find that their circumstances and relationships also improve. This is in fact perhaps the most significant experience that we can have. We learn what it means to be creators of our reality, and how to be better stewards of ourselves. Many have experienced very strong re-balancing after just a few 30min sessions, including helping the body to fully process the conditions of cancer. Pathogens, microbes, cancers simply can't co-exist in a body which has had its natural harmonics and bio-energy charge densities restored to optimum levels.

Plasma Therapy

Plasma Systems & Plasma Products Overview

Functions and Protocol Modes include: Cancers, Tumors, Morgellons, Lyme, Biofeedback, Terrain/Detox, Pests & Molds, Microorganisms, Viruses, Bacteria, and much more (with over 40,000 programs available).

Ozone O₃ Therapy

O₃ OZONE THERAPY

Ozone O₃ Therapy

Ozone Sauna Therapy with Tesla Technology:

Ozone (O₃) gas discovered in the mid-nineteenth century is a molecule consisting of three atoms of oxygen in a dynamically unstable structure due to the presence of mesomeric states. Ozone therapy has been utilized and heavily studied for more than a century. Its effects are proven, consistent, safe and with minimal and preventable side effects. Medical O₃ is used to disinfect and treat disease. Mechanism of actions is by inactivation of bacteria, viruses, fungi, yeast and protozoa, stimulating the metabolism's oxygen and activating the immune system.

Ozone O₃ Therapy

Ozone Sauna Therapy Benefits:

An activated oxygen session is one of the most powerful methods to detoxify and oxygenate your body. The moist heat in the steam sauna opens up your pores and dilates the capillaries, helping to “flood your body with oxygen”. The activated oxygen oxidizes toxins in fat, blood, and the lymph system. The majority of the toxins are sweated out in the sauna, which customers may be able to see the toxins after their sauna session.

Ozone O₃ Therapy

A sauna session can burn as many as 600-1000 calories as your heart rate increases by 50-75% during a session. This increases circulation, metabolism, and energy. Enhanced cellular immunity with an overall feeling of having been “cleansed.” Restoration of suppleness and elasticity with increased oxygen. Increased oxygen levels stimulate production of new skin cells. Toxins are removed from fat. This leaves the body to no longer need the fat to store the toxins and substantial weight loss is often realized.

Ozone O₃ Therapy Benefits

Blood booster	Kills worms
Blood purifier	Oxygenates pancreas
Boosts energy	Prevents degenerate diseases
Breaks up cholesterol	Prevents gastro intestinal disorders
Builds muscle	Ignites carbohydrates
Burns fat	Prevents gangrene
Calms nerves	Prevents Alzheimeru2019s
Cell energizer	Strengthens immune system
Cleans mucus	Prevents fever blister
Clears out brain fog	Prevents shingles
Combats chronic fatigue syndrome	Improves amino acid utilization
Combats depression	Help supplements to work better
Corrects dizziness	Improves brain function
Corrects memory loss	Purifies liver
Decomposes plague	Clears out dirty fluids
Eliminates lactic acid	Prevent Multiple Sclerosis (MS)
Enhances immune system	Oxygenates spleen

Ozone O₃ Therapy Benefits

Fights bronchial problems	Improves mental stability
Fights flu	Prevents premature aging
Fights infection	Fights parasitic infection
Heightens alertness	Prevents cardiac arrhythmias
Immune enhancer	Kills Candida
Improved circulation	Improves mental quickness
Improves digestion	Prevents angina pain
Improves heart function	Prevents Lymes disease
Increases cellular vitality	Detoxifies the lymph system
Kills bacteria	Prevents Epstein-Barr
Kills candida	Prevents asthma
Kills parasites	Decreases stress
Kills virus	Fights herpes
Liver cleanser	Balances acid/alkaline
Neutralizes acid	Oxidizes morbidic material
Neutralizes chronic hostility	Neutralizes environmental toxicity
Neutralizes stomach acid	Burns off excess sugar
Overcomes weakness	Enhances mood
Oxidizes poisons	Prevents nerve related diseases

Ozone O₃ Therapy Benefits

Oxygenates hemoglobin	Destroys harmful microorganisms
Prevents colds	Disburses heavy metal toxicity
Prevents sudden heart attack	Fights Fibromyalgia
Prevents tumors	Speeds up faulty metabolism
Protects against stroke	Prevents peripheral vascular disease
Releases tension	Prevents irregular heartbeat
Relieves angina	Prevents cluster headaches
Relieves muscle aches	Kills bad colon bacteria
Skin purifier	Improves mineral absorption
Speeds athletic recovery	Detoxifies every cell in the body
Speeds healing	Fights Emphysema
Speeds recovery	Prevents constipation
Stops cancer cells	Prevents allergies
Vitality booster	Improves vitamin uptake

Ozone O₃ Therapy

OZONE THERAPIES

Cryotherapy

Cryotherapy

Cryotherapy:

Cryotherapy is the science of exposing the body to subzero temperatures in order to stimulate multiple physical and mental health benefits. Cryotherapy speeds up muscle recovery and relieves pain from any part of the body. It helps with weight loss and enhances general health and wellness. Cryotherapy is also used to treat aging and various skin symptoms. are widely used to relieve symptoms of various diseases including inflammation, pain, muscle spasms, and swelling, especially chronic inflammatory ones, injuries, and overuse symptoms.

Cryotherapy

Cryotherapy:

At present, the use of very cold air in special, controlled chambers may be proposed for treating symptoms of various diseases. Besides its clinical applications, a brief full body exposure to dry air at cryogenic temperatures lower than -110°C has become widely popular in sports medicine, often used to enhance recovery after injuries and to counteract inflammatory symptoms resulting from overuse or pathology.

Cryotherapy

Cryotherapy:

Cryotherapy Recovery Health and Wellness: Cryotherapy is a much faster and more effective way to cool damaged tissue and effectively treat a number of conditions in improving patients' overall health. In addition to reduction in chronic pain and enhanced systemic immunity, studies and other reported benefits indicate that cryotherapy significantly improves symptoms related to: arthritis; fibromyalgia; tendonitis and joint inflammation; psoriasis; depression, anxiety, and stress; sleep disorders; and postoperative recovery

Cryotherapy Elite Fitness and Performance: What do the Dallas Mavericks, Kansas City Royals, Floyd Mayweather and numerous other professional and collegiate sport teams have in common? They understand that faster recovery permits a consistent and frequent training schedule which is central to quicker skill development and performance, and that CRYO is the tool to significantly accelerate recovery. Athletes with poor recovery and frequent injuries are prevented from the consistency needed to reach optimal performance levels.

Cryotherapy

Cryotherapy:

Athletes seeking maximum performance and competitive fitness advantages should utilize CRYO in their training and recovery regimen to help attain their goals. Whether you desire better muscle healing, decreased fatigue, or accelerated recovery time, connect with our trained team members to schedule a visit.

Benefits in fitness and performance include: Muscle & Joint Repair - accelerated soft tissue healing; improves recovery time during training and from injury; increases energy levels and stamina; reduces inflammation throughout the body; relieves pain in joints and muscles; improved muscle fatigue and sustained performance.

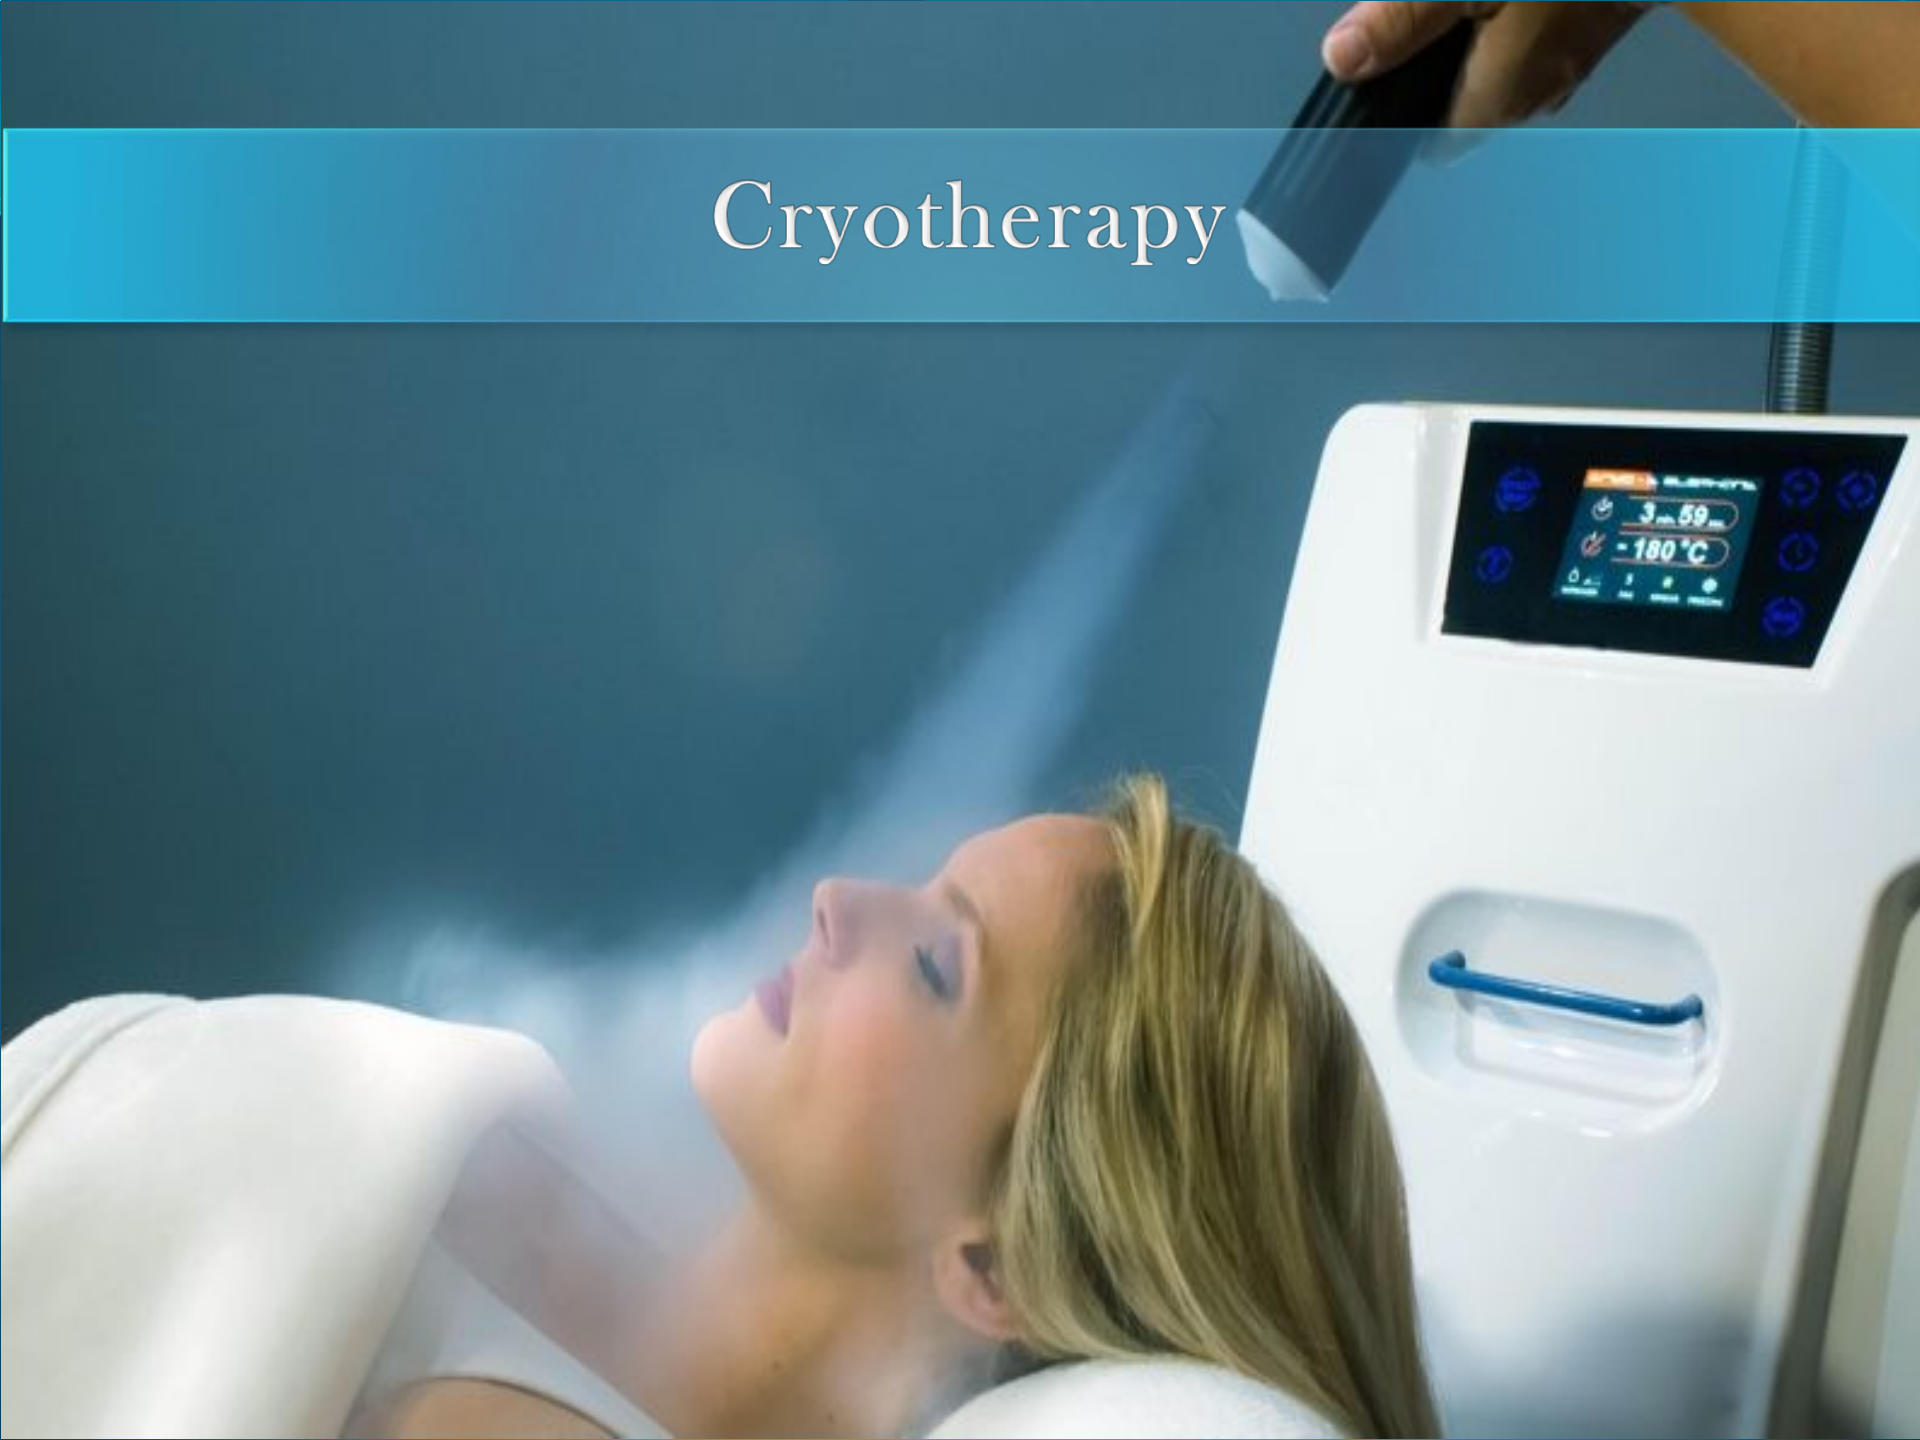

Cryotherapy

Cryotherapy:

Cryotherapy Beauty and Anti-Aging: While the results of cryotherapy can be impressive inside the body, they can be equally as stunning on the surface as CRYO tricks body sensors to implementing the same response it would if you were freezing, thereby jump-starting the body's natural healing, detoxification and rejuvenation processes. Due to the improvement of circulation as the body works harder to reheat and transport blood, and the rush of oxygenated, nutrient-rich blood back to the surface of the skin following a treatment, many have experienced the following dramatic results. Reported benefits include the following: increased collagen production; skin tightening and reduced signs of aging; increased metabolism and weight management benefits (500-800 calories burned in one session); more youthful complexion; and cellulite reduction.

Cryotherapy

NeuroSpa Energy Lounge

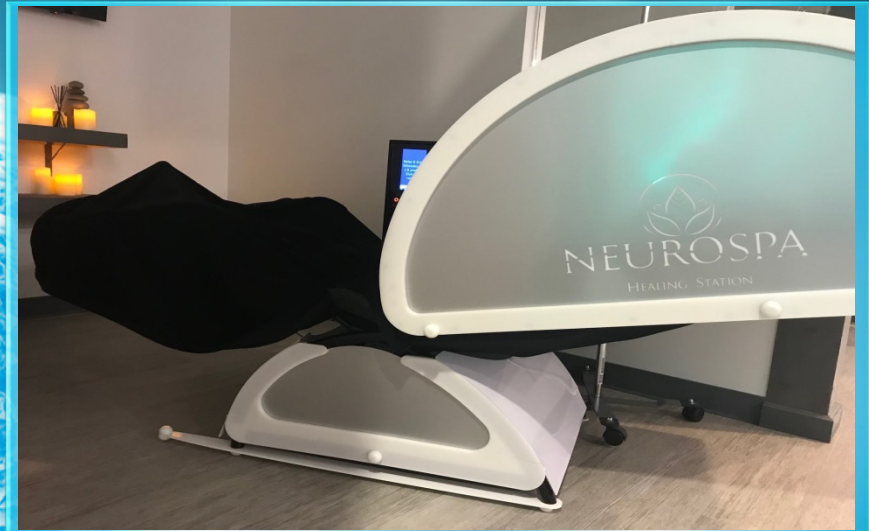

NeuroSpaTM
STATION

NeuroSpa Energy Lounge

NeuroSpa Energy Lounge:

The NeuroSpa Energizing Lounge helps achieve a state of well-being by releasing tension at a deeper level of the body. Our Energizing Lounge is a unique kind of relaxation therapy that synchronizes your mind and body through the power of sound, light and massage.

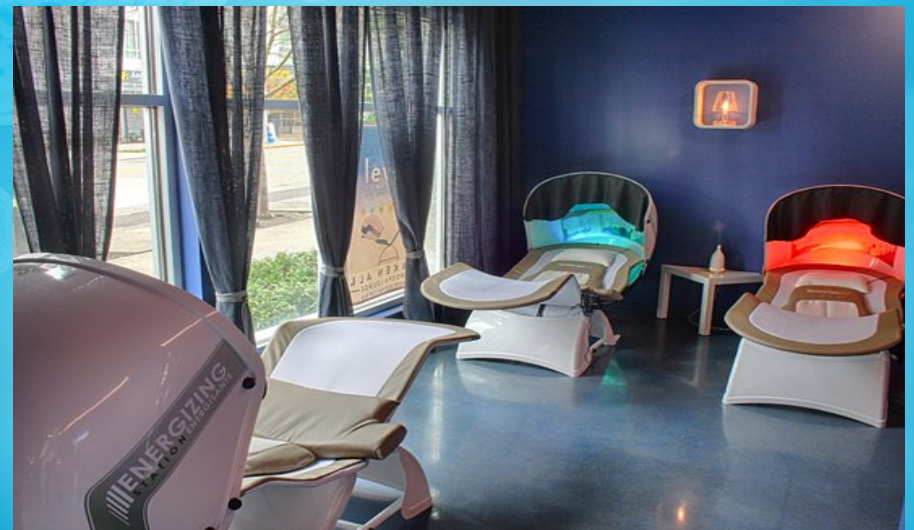

NeuroSpa is offered in more than 300 renowned spas. Well-known companies (e.g.: Google, Reebok, Ubisoft) offer it to their employees to relieve pain, reduce stress and improve performance. These relaxation devices have been designed to achieve mental wellness, relieve pain, reduce stress, and induce a relaxation state using multi-frequency acoustic vibration.

NeuroSpa Energy Lounge

NeuroSpa Energy Lounge:

During a session; the customer will sit comfortably and select an energizing or a napping mode, then soft sensations captivates the customer from the first minutes and stimulate gently all parts of the body. After a short time, the acoustic frequency neutralizes resistance and communicates directly with the nervous system which gradually replaces tensions caused by stress. The comforting sensations fill the entire body, leaving the customer in a state of peaceful tranquility. It's a revitalizing experience that helps the customer be centered in the moment and gives a continuous warm feeling during normal daily activity.

NeuroSpa Energy Lounge

NeuroSpa Energy Lounge:

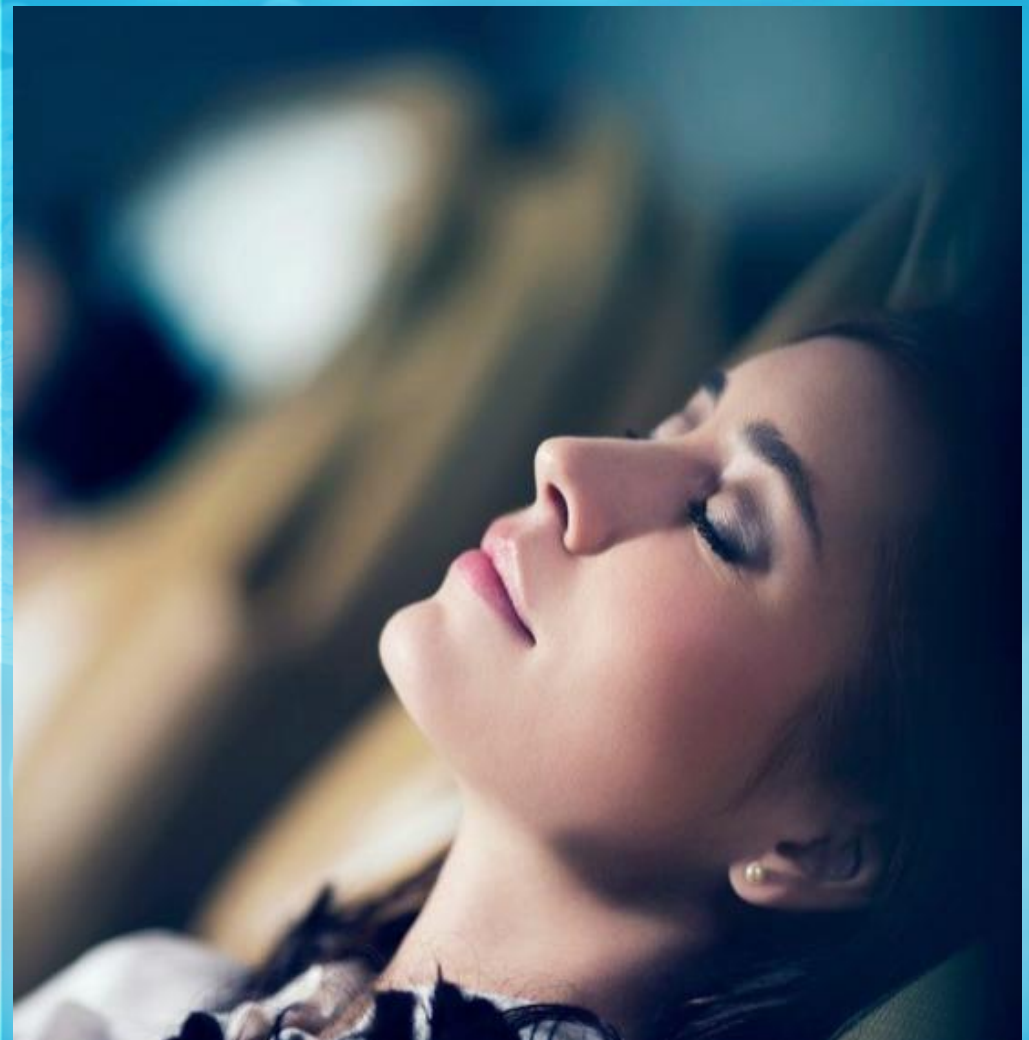

NeuroSpa Health Benefits: The Neurospa neutralizes stress and anxiety; improve sleep and eliminate fatigue; improve performance and concentration; deeply relaxes the body; provides durable sense of well-being; stimulate blood circulation; regulate blood pressure; relieves chronic pain; reduction of back and neck pain; and reduction of arthritis pain.

NeuroSpa Energy Lounge

NeuroSpa Energy Lounge:

NeuroSpa allows achieve temporary state of wellness and improve body energy in few minutes (15-30 min.) and regular sessions allow permanent mental and physical balance. NeuroSpa is used in most renamed spa centers, because it helps achieve a real state of wellness by releasing tension at a deep level of the body. Positive effects are similar to osteopathy and full body massage therapy techniques. It is why many health professionals use these devices in combination with traditional treatments.

Quantum BrainTap

BRAINTAP 

Quantum BrainTap

Quantum Braintap Technology: The BrainTap is a mind-based medicine tool. The BrainTap uses specialty glasses equipped with pulsating lights that combine with rhythmic beats and creative visualization/relaxation (CVR) sessions to help you become motivated, think clearly, stay focused, and easily recall what you've learned.

Quantum BrainTap

BrainTap frames are used in clinics throughout the world for things such as weight loss, pain management, sleeping disorders, depression, anxiety, smoking cessation, post-traumatic stress disorder, and many other protocols. They are a highly effective tool that combines light therapy (visual component) and neurolinguistic programming (auditory component delivered in alpha and theta frequencies) to strengthen or create new neural pathways. Whether you want to overcome stress eating, conquer a bad habit, instill a positive mindset, retain more information in memory, advance your career, or master a sport, enhance learning, write the Great American Novel, get your body super fit or simply regain your health and vitality, the benefits are endless with BrainTap and the technology is affordable to be prescribed at home following 4-6 weeks of use at our Centers.

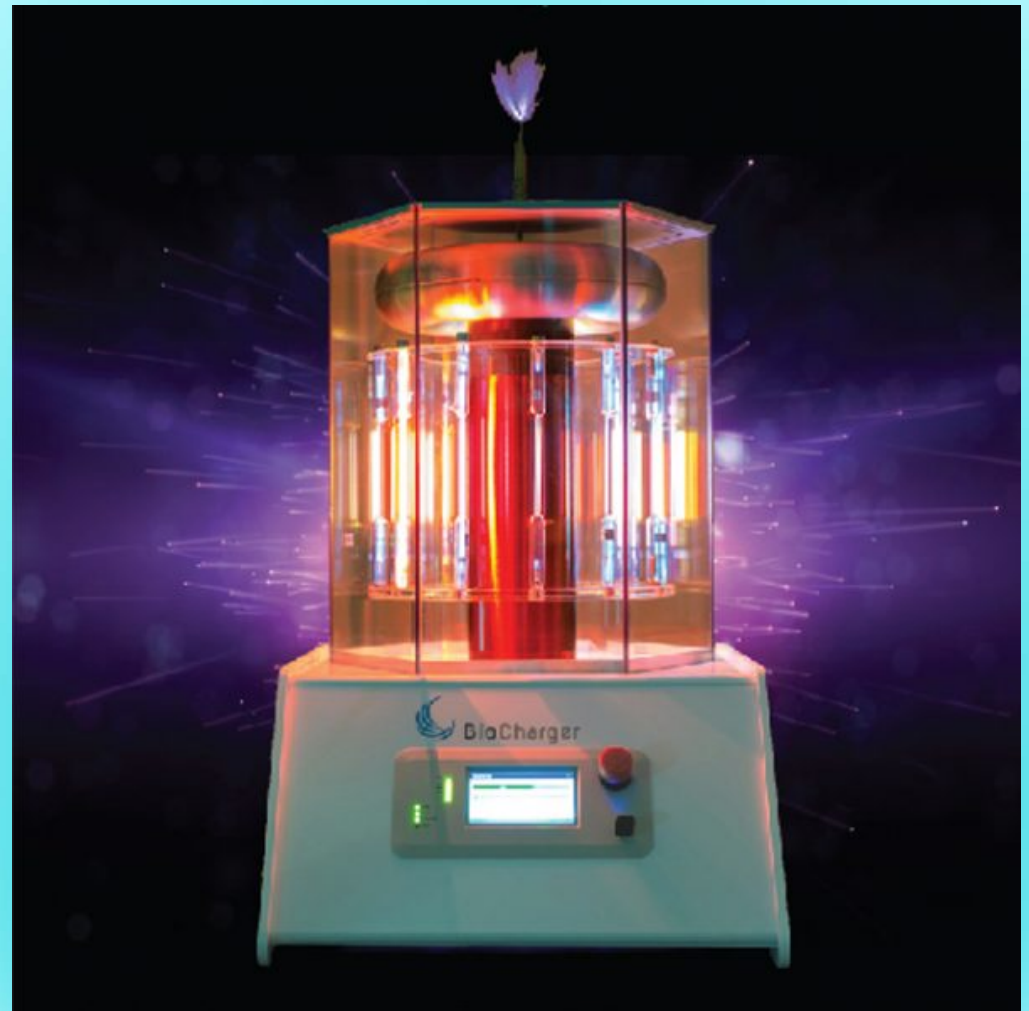

BioCharger™ NG

BioCharger™ NG

BioCharger™ NG:

The BioCharger™ NG is a hybrid subtle energy revitalization platform that combines recipes and protocols that incorporate plasma, frequency, and light to for wellness and reenergizing of the body. The BioCharger can be used to benefit the mind and body, alternative therapies, and for peak athletic performance. Various recipes and frequency protocols are utilized in 10-30 minute sessions depending on individual client needs.

BioCharger™ NG

BENEFITS OF USING BIOCHARGER™ NG

Energy

The BioCharger™ NG will revitalize your body to perform at peak levels and have you bouncing out of bed.

Recovery

Whether it's a workout, an injury, stress, or the bumps and bruises of everyday life, the BioCharger™ NG platform will allow you a quicker bounce-back.

Performance

Getting the most out of your body comes down to effort, practice, and the recovery that follows.¹ Just 15 minutes a day with the BioCharger™ NG can accelerate you toward your new personal best.

Focus

The BioCharger™ NG helps align your mind and body to allow you to work efficiently.

Sleep

The BioCharger™ NG delivers healing energy waves¹ that will realign your mind and body, so you're prepared to face the day in the morning and ready for bed at night.

Flexibility

Just as the BioCharger™ NG helps to accelerate muscle recovery and reduce stiffness in joints, it also contributes to improved mobility and flexibility.

BioCharger™ NG

BioCharger Benefits Include:

Energy: The BioCharger™ NG will revitalize the body to perform at peak levels and have you bouncing out of bed.

Recovery: Whether it's a workout, an injury, stress, or the bumps and bruises of everyday life, the BioCharger™ NG platform will allow a quicker recovery and bounce-back.

Performance: Getting the most out of our body comes down to effort, practice, and the recovery that follows. Just 15 minutes a day with the BioCharger™ NG can accelerate a customer toward their new personal best.

Focus: The BioCharger™ NG helps align the mind and body to allow a customer to work efficiently.

Sleep: The BioCharger™ NG delivers healing energy waves that will realign the mind and body, so a customer is prepared to face the day in the morning and ready for bed at night.

Flexibility: Just as the BioCharger™ NG helps to accelerate muscle recovery and reduce stiffness in joints, it also contributes to improved mobility and flexibility.

Cocoon Wellness Pods

Cocoon Wellness Pro Pod:

A luxurious, full body, powered massage system ergonomically situated within a pod of thermal active energy creates a revitalizing, rejuvenating and relaxing experience for the mind, body, and spirit. Users lie down in the bed, adjust the features, and enjoy private wellness sessions that last from 15 to 60 minutes. The customer will experience the limitless rewards of mindfulness, enhanced fitness, and well-being. The Cocoon Pod features a patented, built-in exercise fitness system. Exercise bands are easily changed to provide low to high resistance for all fitness levels. The Integrated FitBed optimizes weight management goals and maximizes calorie burn for increased fitness results.

YOUR BODY
DESERVES
THE BEST

ProShape
COCOON

Cocoon Wellness Pods

Cocoon Wellness Pro Pod:

The color touch screen provides workouts for users to choose from. The system combines high heat and exercise and enables calories to burn better. Fitness experts choose to use the FitBed exercise system to help them achieve their fitness goals faster. The user friendly Cocoon software includes preset Cocoon programs: Relax; Wellness; Power Nap; and Fitness & Weight Management. Users can also select custom programs or create their own customized setting for pre and post fitness workouts sessions. All programs can be modified to personalize and change: Session time; Duration; Heat Levels; and Massage Intensity.

Cocoon Wellness Pods

The Cocoon Aqua IR Hydration Pro Pod:

The Cocoon Aqua IR Hydration Pro Pod is the first revolutionary whole body liquid wellness pod system that provides the skin surface with deep heat, topical, soothing moisture, powerful water proteins, and liquid vitamin solutions. Features include: Liquid Vitamin Solution Infusion System; Far Infrared Radiant Heat; Steam Diffusion; Colorful Spectrum Lights; Vibratory Massage Bed; Aromatherapy; Soft, Comfortable Bed & Head Pillow; Adjustable Cool Facial Air; and Enriched Oxygenized Air.

Cocoon Wellness Pods

The Cocoon Aqua IR Hydration Pro Pod:

Cocoon Aqua IR Hydration Pro Premium Oxygen Science Solutions infuse steam with natural herbs, select vitamins and liquid aquaporin nutrients for the appearance of brighter, hydrated, glowing skin! Beautiful skin wellness is now easier than ever. Our skin tissue is 90% liquid and the Cocoon Aqua IR Hydration Pro provides special aquaporin liquid vitamins and oxygenated solutions that topically nutrify the skin with liquid-only technology.

Cocoon Wellness Pods

Cocoon Aqua IR Hydration Pro Settings:

- ❖ **Hydrate:** LED Color: Green; Oxygen Science Product: Hydrate or Aloe; Fragrance: Cucumber & Melon Blends; Key Ingredients: Aloe, Collagen, Algae, Hyaluronic Acid
- ❖ **Cleanse:** LED Color: Blue; Oxygen Science Product: Cleanse or Mineral Melanin; Fragrance: Chamomile, Geranium & Lavender; Key Ingredients: Green Tea, Algae, Minerals, Bark Extract
- ❖ **Bright Luminous:** LED Color: Orange; Oxygen Science Product: Bright-n-Luminous or E&C; Fragrance: Citrus; Key Ingredients: Vitamins E, C, A, B, Green Tea, Oligopeptides
- ❖ **Weight Management:** LED Color: Pink; Oxygen Science Product: Weight Management or COQ; Fragrance: Pomegranate & White Tea; Key Ingredients: Caffeine, Yerba Mate, Algae, Cranberry

Cocoon Wellness Pods

Cocoon Wellness Pro Pod Benefits:

General wellness system that is part of a healthy lifestyle; promotes relaxation & stress management; maintain weight management or assist with weight loss goals; improved mental acuity; assists in firming, toning, and improving physical fitness; promotes healthy lifestyle sleep management choices and customized vibrational massage for relaxation.

The infographic features a central image of a person's torso in a dark, textured garment. Four diamond-shaped icons are placed around the torso, each representing a benefit. The icons are: a green diamond with a white gear-like symbol (Relaxation), a yellow diamond with a white pulse line (Weight Management), a pink diamond with a white dumbbell (Personal Fitness), and a grey diamond with a white leaf (Mental Acuity).

RELAXATION
Engulf your body in premium 3-tiered Infrared light, with all of our award-winning designs created specifically to maximize comfort with maximum results.

WEIGHT MANAGEMENT
Increases weight loss goals and healthy eating with our pods and saunas. A revolutionary healthy lifestyle fitness system!

PERSONAL FITNESS
Maximize your recovery after a workout session, or incorporate at your gym for a HOT premium member perk.

MENTAL ACUITY
Improve your concentration, multitasking, and decision making and start your healthy lifestyle with our saunas and pods.

Light Mandalas Technology

A woman with her eyes closed is lying on a bed, wearing a white top. A person's hands are visible, holding a device that emits a bright blue light. The light forms a glowing, ethereal shape above the woman's head. The background is dark with some blue and purple light trails. The overall scene suggests a therapeutic or healing session.

EXPERIENCE SACRED RESONANCES

Pure Healing Light

Light Mandalas Technology

Light Mandalas Technology:

This is a technology that gently repairs the body's energetic and informational fields by nourishing and supporting its weaker aspects while at the same time correcting discordant energies. Using pure sacred coherent geometric resonant light, refracted through crystals, we introduce the Light Mandalas Tools. Light Mandalas tools explore the effects of resonant fractal geometry on the body's energetic and informational fields, allows the user to explore the resonant effects of various substances, such as flower essences, and explores the effects of resonant fractal geometry on the body's energetic and informational fields.

Light Mandalas Technology

Light Mandalas Technology:

Instead of focusing on aging & disease, Light Mandalas focuses on quality of life, health, and longevity. The principal is prevention, using the realization that the only sensible approach is to keep the body, mind, heart and spirit integrated and healthy so they can resist all intruders, thus preventing decay and disease, this technology was invented devising detailed and comprehensive tools for prevention through the process of psycho-physiological healing, using the Mandala tools to clear and harmonize life - emotionally, physically, mentally and psycho-spiritually.

Light Mandalas Technology

Light Mandalas Technology:

Light Mandalas crystals produce harmonically down-scaled light fields, allowing their beneficial effects to be conveyed to the energy field of the user. Specially prepared crystals, full-range white lasers, and hand crafted gold-plated wave guides, cut to sacred geometric proportions. Sacred geometric mandala fields deliver informational resonances, received through the human energetic and informational fields (aura), which produce substantial mental, emotional and physical benefits.

Light Mandalas Technology

Light Mandalas Benefits:

Light Mandalas technologies offer a variety of mental, emotional, and physical benefits.

The Benefit of Relaxation - Explore interactions between resonant geometric photon fields and human energetic and informational fields. Experience white lasers, resonantly tuned crystals, and hand crafted gold-plated wave guides, cut to precise universal geometric proportions. Create custom ambient atmospheres, uplifting moods, and states of consciousness through brain wave and bio-field entrainment.

The Benefit of Holistic Healing - Using the resonant effects of various substances, such as flower essences, essential oils, herbal remedies, and structured water. The resulting resonant photon field reflects the properties of the chosen substance, and interacts with the body's energetic and informational fields, producing holistic healing effects.

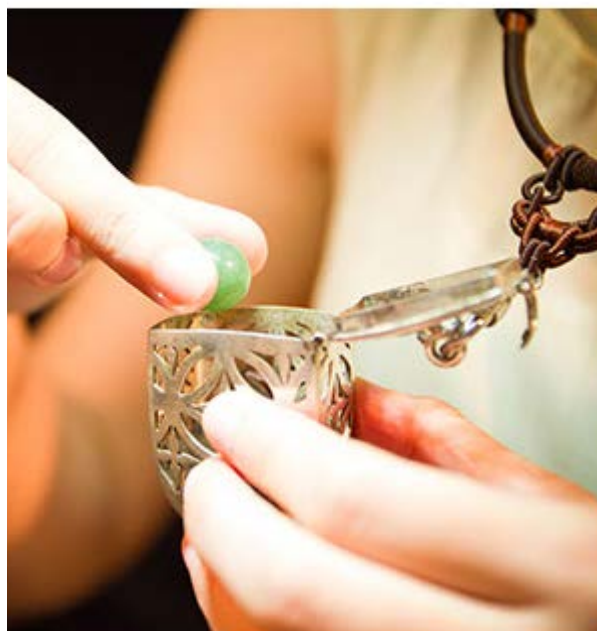

The Benefit of Effectiveness - Sacred geometry is the sacred language and blueprint of creation - based on shape, form, wave and vibration - from which the entire universe and all matter is formed. The science of sacred geometry can be traced back to the ancient civilizations of Egypt and Greece, and it continues to be studied today in the modern science of fractals. Light Mandalas tools are used for ultimate well-being, by offering holistic stress relief, regeneration, and wellness.

Light Mandalas Technology

SACRED COHERENT LIGHT

Light Mandala tools explore the effects of resonant fractal geometry on the body's energetic and informational fields.

CRYSTAL PHOTOPORATION

Allows the user to explore the resonant effects of various substances, such as flower essences.

RESONANT FRACTAL GEOMETRY

Light Mandala tools explore the effects of resonant fractal geometry on the body's energetic and informational fields.

NovaThor Infrared Light Technology

NovaThor Infrared Light Technology

NovaTHOR Bed Infrared Light Therapy:

Photobiomodulation therapy is defined as a form of light therapy that utilizes non-ionizing light sources, including lasers, light emitting diodes, and/or broadband light, in the visible (400 – 700 nm) and near-infrared (700 – 1100 nm) electromagnetic spectrum. It is a non-thermal process involving endogenous chromophores eliciting photophysical (i.e., linear and nonlinear) and photochemical events at various biological scales. This process results in beneficial therapeutic outcomes including but not limited to the alleviation of pain or inflammation, immunomodulation, and promotion of wound healing and tissue regeneration. The term photobiomodulation (PBM) therapy is now being used by researchers and practitioners instead of terms such as low level laser therapy (LLLT), cold laser, or laser therapy.

NovaThor Infrared Light Technology

The fundamental principles that underpin photobiomodulation (PBM) therapy, as currently understood in the scientific literature, are relatively straightforward. There is consensus that the application of a therapeutic dose of light to impaired or dysfunctional tissue leads to a cellular response mediated by mitochondrial mechanisms that reduce pain and inflammation and speed healing.

NovaThor Infrared Light Technology

NovaTHOR Benefits:

- ❖ Improved Wellness and Vitality - Decreased inflammation; improved lymph draining; improved blood circulation; increased energy; and overall faster return to wellness.
- ❖ Improved Performance & Recovery - More intense and higher volume training; improved muscle strength; reduced post exercise soreness; decreased injury recovery time; faster return to sports training.
- ❖ Improved Pain Management - Non-invasive; side effect free; increased range of motion; decreased pain in muscles, nerves, tendons, and joints.
- ❖ Non-Medical Interventions for Pain Management in Musculoskeletal Conditions to include - Arthritis; Neuropathies; and Tendinopathies.
- ❖ Non-Medical Interventions For Syndrome Conditions to Include - Fibromyalgia; Chronic Fatigue; Lupus; Rheumatoid Arthritis; Psoriatic Arthritis; and Lymphedema.
- ❖ FDA Approval For NovoTHOR PBM Therapy Include - Restoration of motion to joints; decreased post exercise soreness; adjunct to obesity as part of a diet and exercise program.

Systemic Benefits to Include - Cognitive improvements; mood benefits; headaches and migraines; improved immune system functioning; flu symptoms; sinusitis & hay fever; sleep; reduce fatigue; increased energy; blood pressure; mental acuity; traumatic brain injury; concussion recovery; brain neurodegenerative symptoms; and neuro-developmental symptoms.
