It also includes food in freezers and refrigerators. In lieu of removal, these items may be placed in Nylofume bags or Fumiguard bags and sealed with tape or clamps. IF WE HAVE TO BAG THE FOOD THERE WILL BE AN EXTRA CHARGE OF \$25.00 PER BAG.
NOTE: The reason for removal or bagging of food items is the fact that neither Vikane nor Methyl Bromide is registered for fumigation of prepared foodstuff.
8. THE OCCUPANT SHOULD SOAK THE SOIL WITH WATER AT LEAST 12 INCHES FROM FOUNDATION OUTWARD. THIS CAN BE DONE THE EVENING BEFORE AND MAY HELP TO PROTECT PLANT ROOT GROWTH. CUT BACK PLANT GROWTH WHERE POSSIBLE 12 TO 18 INCHES AWAY FROM EXTERIOR OF BUILDING(S).

12. To ensure complete gas ventilation, the fumigator may sometimes have to open your drawers or cabinetwork and closets; you may wish to do this prior to the fumigator's arrival.
13. For insurance purposes, we request you remove and take with you any valuables you deem necessary, such as jewelry, furs, mounted animal trophies, etc. (See item F below).

TERMS, CONDITIONS AND LIABILITIES

- A. Our crews must fumigate several structures in various locations each day. Therefore, any time of day for the fumigation to be scheduled will be an approximate time only. ALL APPROXIMATE TIMES SUBJECT TO CHANGE WITHOUT NOTICE.
- B. We do not wish to inconvenience you by having you wait for our arrival on the day of the fumigation. When you decide on a date, talk it over with your termite inspector, make arrangements with regard to keys, and leave with the assurance that your building will be properly fumigated and will be safe for your return. IN CASE OF RAIN OR STRONG WINDS, THE JOB MAY HAVE TO BE POSTPONED TO A LATER DATE; BE SURE AND LEAVE AN EMERGENCY PHONE NUMBER WHERE WE COULD REACH YOU. FORCIBLE ENTRY, IF NECESSARY, WHERE ALL KEYS ARE NOT LEFT, WILL RESULT IN DAMAGE AND THEREFORE THIS COMPANY WILL NOT BE RESPONSIBLE FOR REPAIRS.
- C. Where climbing plants, fences, trellises and vines must be detached from the building, and the homeowner/occupant has not done this, any damage will not be our liability. Fences and gates must be unlocked and in working order. We will not be responsible for these items.
- D. Fumigations where masking tape is used (tape fumigation in lieu of tarp fumigation) and where the painted surface is old or oxidized will result in some peeling of paint. Some painted surfaces will chip or peel if the undercoating was not properly applied even though these surfaces appear to be in good condition (the tape we will use will not peel paint that is properly applied), therefore we assume no responsibility for any such damage.
- E. THE ROOF SURFACE AND PERIMETER AREAS OF THE BUILDING MUST BE WALKED UPON, AND DAMAGE WILL OCCUR. THIS COMPANY WILL NOT ASSUME LIABILITY FOR SUCH DAMAGE OR CONSEQUENTIAL DAMAGE THAT WILL OCCUR TO ROOFS OR ROOF COVERINGS AND AREAS BELOW SAME, GUTTERS, ELECTRICAL WIRING, PATIO AND AWNING COVERS, SOLAR HEATING PANELS OR RELATED PLUMBING, AND LIVING PLANTS OR LANDSCAPING AT/ADJACENT TO SUBJECT PROPERTY. TV antennas and/or Satellite dishes may be damaged or knocked out of alignment. Owner may choose to remove these items prior to fumigation, to avoid any damage. We will not be held responsible for these items.
- F. We do not provide on-site security during the fumigation procedure or after the tent(s) or seals are removed, and as such our insurance does not cover malicious vandalism or theft (screened windows are left open and unlocked for fumigant ventilation of the building); if the homeowner or occupant wishes such security, same would be at his/her additional expense for such arrangements, and is not the liability of this company.
- G. All exterior doors (including water heater cabinet) to the building being fumigated must be able to be locked; if no hasp or other lockable interior/exterior locking devices exist, state law requires nailing these doors shut; if the homeowner or his/her agent has not provided such locks, and nailing is then performed by the fumigation licensee, we will not assume any liability for damage to the door or door jamb. Nailing or locking is required to keep out any person such as a small child from being accidentally trapped inside.
- H. On jobs that are re-scheduled or jobs that warrant a re-fumigation, Mega Fume, Inc. will not be responsible for lodging of tenants or pets.
- I. This notice has been printed in the English language; by signature hereon, the homeowner, agent or occupant(s) agrees that he/she has had this form explained in their native tongue by their own interpreter.
- J. The owner, tenant has identified all connecting structures on the property (i.e. hollow walls, breezeways, rooflines, ducting, central vacuums, abutments, ect.), and has notified primary contractor and sub-contractor prior to commencement of the fumigation.
- K. In instances where zero-lot-lines exist, permission to enter neighbor's yard and neighbor's signature is required.
