Welcome to the bull barn for our 34th annual Spear U Ranch Bull Sale. We have an outstanding group of bulls that are loaded with meat and muscle; with offspring from the leading sires in carcass and maternal traits. The Spear U Ranch has spent nearly 40 years selecting for balanced traits that are proven bred in genetics not fed on.

After viewing the line up, please don't hesitate to call Jace or I with any questions. We will once again be wintering all the bulls at our expense until delivery in April.

The Spear U Ranch would like to thank you for your continued support and look forward to another great year. See you sale day!

# How to Read the Information Printed with Each Sale Lot

Complete performance information is provided for each animal. The raitos are calculated in separate contemporary groups and conditions they were raised under, so that a ratio of 100 will not necessarily correlate to the same weight between the different groups. We have calculated interim EPDs for cattle that do not yet have official EPDs. Expected Progeny Difference (EPD) is the estimate of how future progeny of each sire are expected to perform in each of the traits listed. EPD is expressed in pounds, either plus or minus. For example, when used on the same cows, calves sired by a bull with a +40 weaning EPD should average 10 pounds more than those sired by a bull with a +30 weaning EPD.

i50K see information on page 4

**Calving Ease Direct (CED)** predicts average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth (BW) EPD** is a predictor of progeny birth weight attributed to the parents.

**Weaning (WW) and Yearling (YW) EPDs** are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

**Milk EPD** is a predictor of an animal's genetic merit for milk and mothering ability.

**Birth Weight (actual)**      **Weaning Weight (adjusted)**

**Dam Production** is the number of calves and average nursing ratio for all calves raised by the dam of the animal.

**\$W (Weaned Calf Value)**  
 an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**Feedlot Value (\$F)**  
 An index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

**Grid Value (\$G)**  
 An index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**\$B (Beef Value)**  
 An index value expressed in dollars per head, the expected average difference in future progeny performance for post weaning and carcass value compared to progeny of other sires.

**EPDs for Carcass Merit based on the Ultrasound Evaluation System**

**Carcass Weight EPD (CW)**, expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling EPD (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area EPD (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

**Thank you to all of our past customers.**  
**We look forward to seeing you sale day!**

# WHY WE TEST WITH i50K FROM ZOETIS

Powered by i50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're proud that customers like you can minimize risk in their investment — and add predictability and dependability to your cattle.

The benefits of buying i50K-tested bulls and heifers goes much farther than this, however. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. And, you can verify the sire of calves and replacement heifers produced by the bulls you buy from us — through GeneMax® Advantage™ and GeneMax® Focus™— to make better breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with i50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs powered by i50K

*Hello Ladies and Gentleman,*

My name is Tate Eisenbraun and I have lived here in Wall, South Dakota my entire life. I have two brothers and two stepsisters. I have been working on my family farm and ranch my entire life. For me, I have always enjoyed the ranching side more and have always had a vast interest in cattle. When I was in the first grade, my teacher had a little drawing deal where you would ask Santa what you wanted for Christmas and draw a picture of it. I wanted a bull, of course, and so Greg Shearer must've seen that and he gave me \$500 dollars off on any bull of my choice at his bull sale that year. Now 11 years later I have the opportunity to sell my first registered bull in the Spear U bull sale. I am implementing a senior project. My grandpa, Larry Eisenbraun, helped me buy a registered cow a year back that I wanted to start my registered cow herd with. I bred her with 303 Confidence. Now I have been doing my senior project on raising that bull registered and all the work it takes. Thank you, Jace Shearer, for helping me with my project and getting my cattle registered and also for being my mentor. Also, I'd like to thank Carissa Shearer for helping me with my paperwork and information on the bull. Thank you all for coming out today to this great bull sale. That being said, I want to give a huge thanks to Spear U Angus for giving me this opportunity.

*Sincerely,*  
 Tate Eisenbraun
