

Traveling with children can sometimes be difficult because they can get bored easily. Here are a few ideas to keep them busy while on the road that the whole family can enjoy!

Dictionary Memory

One person picks a letter out of the alphabet. The next person in line, says a word that comes to mind beginning with the letter that was chosen. The game continues on to each person, and a time limit is set for trying to remember a word. Eventually each person is eliminated.

Reading License Plate Game

Observe license plates on other vehicles and "read" what they "say". For example, the plate "007-BVD" could be read as "James Bond's underwear." Vowels may be added to make up words. For example, the plate "001-RVR" could be read as "Number one RVer."

Word Game

The first person says a word that starts with the letter "A", like "apple". The next player will then have to say a word that starts with the last letter of that word, which in this case would be "E" so they could say "elevator". This keeps going until someone gives up.

Pack Your Bags

This game requires 2-10 players. As you go around the circle, have each player name an item that starts with that person's name (if the player's name is Paul, he could bring the pots and pans). Or have the item rhyme with the player's name.

Travel Downloadable

Indigimar This is an example of the "downloadable content" that I created for the Davis Lakes site. It's Suffolk, VA very text heavy. To contour this, I separated everything with sections and colors. If I had the Summer 2014 opportunity to use a large document settings, I could've added more leading and white space.

or shape, and the game starts over again.
