

Memorandum of Understanding

As part of supporting competition within the ACT region, each club was asked to purchase Chronotir digital timing clocks and controllers.

These timing clocks will be made available for each club to borrow for events.

Should clocks or controllers become damaged/non-functioning whilst being borrowed for an Archery ACT event, then Archery ACT will provide financial support for it to be fixed or replaced.

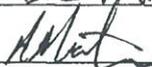

Should clocks or controllers become damaged/non-functioning whilst being borrowed for a club hosted event, then the hosting club who has borrowed the equipment will be responsible for getting it fixed/replaced.

Upon signature of this Memorandum of Understanding, Archery ACT will provide a one-off payment to each club to support their purchase, to the value of \$2000.00.
