Introduction

As the contractual Local Enforcement Agency (LEA), Environmental Health Services is certified by the Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste facilities within its jurisdiction. The South Lake Tahoe MRF/Transfer Station (SLT MRF) operates under a Solid Waste Facility Permit (SWFP) issued by the LEA. The South Tahoe Refuse Co., Inc. has filed a Report of Facility Information (RFI) document with the LEA which describes the design and operation of the facility.

Description of Project

The operator has proposed changes to the RFI in order to update outdated information, including addition of equipment and general updates to personnel and resumes.

Local Enforcement Agency's Determination

The operator submitted an application for a 5-Year Permit Review, along with the updated RFI, to the LEA on 06/12/2019. The LEA reviewed the application package and determined that the proposed changes are consistent with the existing California Environmental Quality Act (CEQA) documents. The LEA further determined that the proposed changes are consistent with the State Minimum Standards and do not conflict with the terms and conditions of the current Solid Waste Facilities Permit. As required by 27 CCR 21660.1, the LEA is distributing this notice for the purpose of noticing its acceptance of the revised RFI.
