The Broken Heart Tells the Tale

Each year, approximately 4,400 children commit suicide due to bullying. *Bullied Dying to Fit In* is every bullied person's story and needs to be heard. Will you listen? The book captures the raw emotional side of bullying. Though everyone's bully story is different, the pain felt is the same. The broken-heart tells the tale.

Bullied Dying to Fit In takes the bullied, the non-bullied and even the bully on an emotional roller-coaster of tears, insight and triumph.

For Teens, Parents, School Counselors & Teachers.

"Bullied, Dying to Fit In should be in every school library, therapists' offices, and homes. It is a must read for parents, students, educators and mental health professionals."
