## Led Lighting

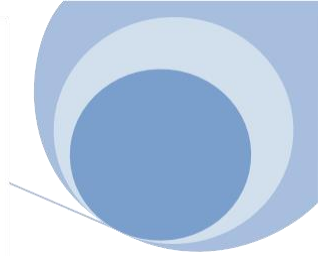

Mostly people leave the lighting jobs for the last minute. Whether it be Flat, Villas, Apartments or even offices, designing the lighting is usually kept as last works as everyone just wants to get the job finished soon and are tired unfortunately it is at this time that hasty decision are made which make them regret later.

Lighting the interiors are as important as other works and must be considered along with space planning and decorations planning. Unless a proper lighting technique is provided the interior designing becomes incomplete. Poor selection of lighting can wash out color and texture, making the room look like an ordinary one. On the other hand, providing a proper lighting technique can enhance and beautify even a simple interior decoration.

We are proud to provide the best lighting selection for your property. We can advise and assist you in planning the proper lighting designs for the clients. The clients / customers can feel free to contact us for providing professional assistance this field.

## Supervision

We also provide supervision of the various projects we undertake. It includes both design supervision and construction supervision. We have qualified operations supervisor for taking care of this sections in the interior projects done across Dubai. The design to be executed are supervised by the professional team. The construction supervisors do on- site supervision and follow up the orders and works. The furniture and other services provided are inspected properly and the delivery of the same and its installations are supervised to ensure high quality finish. We make sure that the projects are done as per the layout and designs and that the projects are executed efficiently.
