- 
1. Describe your Architecture Initiative in brief (which can be used for website visitors as well as printing catalog etc.). Avoid adding confidential info in this answer.

- 
2. Describe your Architecture Initiative in detail. You may include models related to business strategies, business process, IT applications, technology components, deployment, data, people, network, etc, along with descriptions. (No word limit). You can attach document(s).

- 
3. What are the primary business drivers behind the practice of Enterprise or IT architecture or Digital Architecture in your organization? What are the key problems and how did your Architecture practice solve for the company since its inception and in the past year? For example - increased revenues/decreased spending/increased productivity, improved customer satisfaction/retention, greater investment focus on key business priorities, etc... (Please limit your response to less than 500 words and be quantitative. You can attach diagrams/graphs here)

- 
4. How has architecture addressed your business needs? Who are the stakeholders of the architecture team and how do you work with them? What deliverables has the Architecture function produced and how are they used? Are there specific solutions and technologies associated with your Architecture practice? Were there any particular approaches (BSC, Blue Ocean, BPM, SOA, Cloud computing, etc.) that were instrumental in accomplishing goals? (Please limit the response to less than 500 words)

- 
5. When did your Architecture initiative begin, where is it today, and what were the key milestones along the way? What are you planning for the future? What organizational challenges did you have to overcome? What is the size of the Architecture Team? (Please limit the response to 300 words or less)

- 
6. Does your Architecture practice span the entire organization or certain divisions within it? What is the scope of the initiative in terms of duties, number of stakeholders, number of systems integrated (if applicable)? Does the initiative make use of remote team members? Does the team use external consultants or plan to use them for architecture consultation? Does the Architecture team have part-time or full-time members? Include costs if applicable and permitted by your management (Please limit your response to 100 words or less).

- 
7. What are the quantifiable benefits realized based on the business and technical goals the company set out to achieve? Describe the value of architecture to the key stakeholders. If your company does not allow sharing of absolute values, you may represent them as percentage improvement. (Please limit your response to 250 words or less)

- 
8. What challenges you faced in implementing the Architecture initiative and how did you circumvent them?  
(Please limit your response to less than 100 words)

- 
9. If you have nominated the initiative for more than one category of the award, please specify why you think it qualifies for winning the award in the respective category/ies. (Please limit your response to 400 words or less)

---

10. Please attach the following Architecture artifacts:

- Strategy Models
- Business Process Models
- System Models
- Technology Models
- Implementation Details (Models)
- Operational Models

---

## Key contacts for co-ordination with ICMG

### 1. Name

Designation: \_\_\_\_\_

a. Email ID: \_\_\_\_\_

b. Phone : \_\_\_\_\_

### 2. Name

Designation: \_\_\_\_\_

a. Email ID: \_\_\_\_\_

b. Phone : \_\_\_\_\_

## Rules for Award:

Please read the following rules carefully. Any submission that does not comply with contest rules and regulations may be disqualified.

1. The Selection Committee will consider only those nominations providing complete information requested on the nomination form.
2. Only initiatives being implemented will be considered and not prototypes and pilot projects/Proof of concepts.
3. A company may nominate more than one initiative for the award.
4. Professional Service providers are eligible to win the award provided the initiative was completed outsourced to them by the customer and the customer testifies through a separate mail to the Organizers that it allows the submission.
5. Information provided in the nomination form will be used for evaluation for the awards, by ICMG or one of its designated associate/s.
6. By making the submission you give rights to ICMG to publish the work (public content i.e. description provided in Q1) with your name and company name in place.
7. Please note that CEO, CIO, Chief Architect and Chief Digital Strategist automatically qualify for the individual leadership awards once your nomination reaches the final round
8. It is hence advisable to ensure that your submission has the necessary approval within your organization.
9. ICMG reserves the rights to eliminate or merge categories of the award to make it more competitive.
10. All the details must be submitted in English only.
11. The core committee will evaluate the suitability of all the nominations submitted for the different award categories based on the documents submitted. Accordingly, it might prioritize and re-organize the nomination for one or more categories. The jury's decision on mapping the nomination with the award category will be final and binding on the nominee.
12. Once a submission has been entered in the competition, under no circumstances will we accept substitutions of new drafts or corrected information. Those nominations who advance to the Final Round of competition will have the opportunity to submit a revised draft of for the Final Round of judging.
13. ICMG Awards & Ratings program are managed at two levels, one at a regional level and other at global.
14. In 2019, this program will be organized in five regions namely USA (including Brazil), Canada, Europe India, APAC (including ANZ, Malaysia, Philippines, Hong Kong, Thailand, Singapore) and Middle East (including Africa).
15. Winners of the Regional Ratings & Awards 2019 program will receive trophy/certificate at the Award's Night function during Regional Digital Architecture Summit which will be held separately for each region.
16. Winners of the Global Awards, will receive trophy/certificate at the Award's Night function during Digital Architecture Summit in Washington DC.
17. Decisions of the Judges are final and may not be disputed. The Judges will adhere to our award guidelines.

### Evaluation Process (Regional Winners)

1. ICMG Awards & Ratings program are managed at two levels, one at a regional level and other at global. There is no direct nomination for the global awards. The finalists and winners of the regional program automatically qualify for the global ratings.
2. Each Regional Architecture Ratings & Awards program has four rounds.
3. Evaluation Round I - Screening of nominations in terms of project completion status, the category selected, documents (models) submitted.
4. Evaluation Round II - Evaluation of nominations (project documents) using 10 key criteria. Each nomination is evaluated by 3-4 jury members.
5. The **Evaluation Round III** consist of **video interaction** between Project Head/Team members and one or more of the jury members based on pre-defined structure which is shared in advance.
6. The **Regional** Final Round of the Ratings & Awards program is based on **onsite assessment** done during **Digital Architecture World Summit**.
7. All the regional finalists must participate in the Regional Digital Architecture World Summit through a senior management representative.
8. You are expected to share the project experience in a 50-60 mts session or in a panel discussion or both which will be evaluated by one or more jury members.
9. Please note that Round 1, Round II and Round III contributes to 75% of the rating score. The remaining 25% of the score is based on the onsite assessment during the summit.

### Evaluation Process (Global Winners)

1. Regional Winners of Ratings & Awards 2019 program will automatically qualify as the finalists for the Global Awards.
2. The Global Round will be based on onsite assessment at the Digital Architecture World Summit on 19-20-21 Nov, Washington DC.

## Fee Structure

### a) Key components

1. The fee for the participation in Ratings & Awards 2019 consists of three components i.e. Form submission fee, Onsite assessment fee at the regional summit. In addition, the winners of the regional summit have to pay for the Onsite assessment fee for the global round at global summit in Washington DC.
2. Please note that the participating company must bear the travel, lodging/boarding of its team member/s

### b) Form submission fee

1. An entry fee to be paid before submitting your nomination form for the Digital Architecture Awards 2019 competition.

Organization Type	Type / Revenue	Entry Fee per nomination*
• Government Agencies, Departments *	Government Administration	Zero fee
• Small & Medium Enterprises	Annual Revenue < US\$ 500 MN	US\$295
• Large Enterprises	Annual Revenue US\$ 500 MN & above	US\$495

Note\*: Please note that this fee is payable per project, per category submitted for evaluation.

- If a company is submitting one project for one category, the fee is payable for one nomination.
- If a company is submitting a single project for 4 categories, the fee is payable for 4 nominations

For Government departments and agencies, only one nomination is exempted from the entry fee. If a project is submitted for more than one award category, then the entry fee to be paid for the same @ USD 295 per nomination
