

NIST Calibration RMA

VTMC Cloud users, Please contact your VFC State official to have your backup logger exchanged on the VTMC cloud.

This will allow the new logger data to be sent to your VTMC account.

Contact Information

VTMC Customers please enter your VFC PIN# _____

Company Name	
Contact Name	
Phone Number	
Email Address	
Billing Address	
Shipping Address (if different)	
PO Number	

❖ Please send your probe with the data logger when returning for re-calibration.

Instrument Information

Qty of Loggers	
Any problems with the instrument(s)?	

Calibration Pricing: Single Sensor Logger: **\$45**, Dual Sensor Logger: **\$60** (Add \$15 for each additional probe calibrated to same VFC150 logger).

2-Point calibration. Refrigerator & Freezer temps (5 deg C & -15 deg C).

Calibration Notes: Control Solutions is accredited to the ISO/IEC 17025:2005 standard. All calibrations come complete with NIST Traceable Certificate of Calibration compliant to ISO/IEC 17025:2005.

We replace the battery on all non WiFi data loggers with recalibration.
