CODE OF LINCOLN COUNTY

Sec. 18-83. Drawings and specifications.

- (a) When required by the director, two or more copies of specifications, and of drawings drawn to scale with sufficient clarity and detail to indicate the nature and character of the work, shall accompany every application. Such drawings and specifications shall contain information, in the form of notes or otherwise, as to the quality of materials, where quality is essential to conformity with these provisions.
- (b) The director may require details, computations, stress diagrams, and other data necessary to describe the construction and basis of calculations and they shall bear the signature of the person responsible for the design.
- (c) All drawings, specifications, and accompanying data shall bear the name and address of the designer. In the case of buildings or structures of group E - educational, group I - institutional, and group A - assembly occupancy, and all structures or buildings three stories or more in height or 3,000 square feet in area, except one-family or two-family dwellings, such designer shall be an architect or engineer legally registered under the laws of the state regulating the practice of architecture, or engineering and shall affix his official seal to such drawings, specifications and accompanying data.
- (d) Plans for buildings and structures that require approval of the state fire marshal must have same affixed.
