

## Air Jetted Pedestal Tubs

Most models of pedestal base tubs can have air jets in the tub bottom.

Model	Number of Air jets	Blower HP	Heater
59 Bateau Pedestal	20	1HP	200 watts
67 Bateau Pedestal	20	1HP	200 watts
73 Bateau Pedestal	24	1HP	200 watts
59 Double Slipper	18	1HP	200 watts
67 Double Slipper	20	1HP	200 watts
73 Double Slipper	24	1HP	200 watts
59 Double Ended	22	1HP	200 watts
67 Double Ended	28	1HP	200 watts
73 Double Ended	32	1HP	200 watts
54 Swedish Slipper	18	1HP	200 watts
58 Swedish Slipper	18	1HP	200 watts
59 Flat Top	18	1HP	200 watts
62 Flat Top	20	1HP	200 watts
65 Flat Top	24	1HP	200 watts

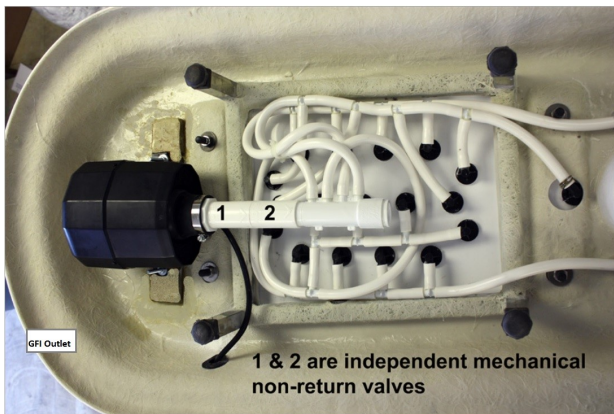

## Air Jetted Pedestal Tubs

pg2

Models	Number of Air Jets	Blower	Heater
57 Single Slipper	18	1HP	200 watts
59 Single Slipper	21	1HP	200 watts
67 Single Slipper	24	1HP	200 watts
73 Single Slipper	24	1HP	200 watts

For tub specs, refer to "Acrylic Pedestal Tub" with no air. Add 50 lbs. for air jets.

### ICS Air Pedestal Tub Design

- \* Blowers are mounted to base
- \* Real air jets with hose supply
- \* Double-check valve protection
- \* 120 Volt, 15 amp CGFI required
- \* One cord to plug in wall receptor

- \* On-Off button cycles through blower speeds
- \* Auto-Purge turns blowers on for 5 minutes to dry air lines, 20 minutes after use.

ICS uses a unique "Hatfprd Style Loop" of PVC pipe to insure water never reaches the blower. The loop is hidden behind tub, per your specification.
