

# Squirt Happy Turtlecakes

PREP  
30 Min

## Ingredients

- Cupcakes
- Gumdrop candies (red and green)
- Wooden kitchen skewer or toothpick
- Frosting
- Spearmint Leaves candies
- Sour Peach Gummi Rings candies
- Mini chocolate chips

## Directions

- 1 Frost the cupcakes.
- 2 For each cupcake, slice off and discard the bottom half of a red gumdrop. Place the gumdrop top on the center of a Gummi Ring to create a turtle shell. Set the shell atop the cupcake, pressing down slightly to stick it in place.
- 3 For fins, slice a Spearmint Leaves candy in half. Then use an oval fondant cutter to cut each half into two pieces, as shown.
- 4 Use the outer pieces for the front fins and the inner pieces for the hind fins.
- 5 For the head, use a kitchen skewer or toothpick to poke eyeholes in the sides of a green gumdrop. Then press a mini chocolate chip into each hole, using a dab of white icing to help hold it in place. Set the head in place, again pressing down slightly so that it sticks to the frosting.
