### Project Overview

*Lest We Forget* is a powerful artistic experience. The viewer becomes a participant who is reminded to NEVER FORGET and is empowered to accept responsibility to repair the world. Despite the popular slogan of NEVER AGAIN, physical and cultural genocides continue. Violence continues around the world and on the school playground. This exhibition can be used as a catalyst for examining local, national and international issues.

Textile artist Sandra Brick translates Fred Amram's stories into visual art. We learn about the early days of the Holocaust and about a Jewish refugee family coming to America, absorbing a new language and adapting to a new culture.

We are honored to share this exhibit with you.
