

EARTHLY HERBALS Organics

Earthly Herbals Organics LLC is located in Westminster, Colorado and has been operated by Janet and Rick Delaco, since its inception in New Mexico in 2006. The same herbal medicinal recipes offered in our lip balms and salves have been made for our family and friends for nearly 25 years.

In the early 1990s, Janet became involved with a group of like-minded herb enthusiasts gathering wild-crafted plants and creating salves and lotions. She began making an anti-fungal salve for our family.

We raised three boys with their share of cuts and scrapes, bug bites, athlete's foot and other itchy stuff. This all over body salve became very popular

with friends and family who wanted an effective, safe product free of any harmful chemicals. That began the development of our Rick's Fix anti-itch, anti-fungal foot and all over body salve.

Our **Earthly Herbals Organic** three part infusion process produces strong medicinal remedies. Our family recipes and infusion process handcraft incredibly rich and effective medicinal products where the full benefits of the whole herbs and oils are realized. Our filtering and finishing process creates products that go on smooth and absorb in fast!

Today we continue to do what we love and are inspired to develop new products we can bring to market and offer to you and your family! *Thanks!*
