

K9CLUBHOUSE DOG HOTEL

MEDICATIONS & ADMINISTRATION

VERY IMPORTANT:

Please be aware that if you have multiple dogs sharing the same suite, there cannot be any issue with them not being separated to eat food with medications or vitamins mixed in their food if instructed to do so unless you have booked a double suite. Dogs sharing a suite must be able to eat together at the same time and not have medications or vitamins in their food. We are unable to separate dogs in a shared suite for feedings that include medications or vitamins.
