Minutes of the Roxbury Selectmen meeting July 23 2018

In attendance: Selectmen Mark Funk and Jim Rousmaniere; Road Agent Ken Buffum.

The meeting opened at 5 p.m.

It was reported that Selectman Tim O’Brien spent much of the day at Town Hall working on computer-related issues partly brought on by the state government’s change of motor vehicle registration software. It was noted that Town Clerk Robin Buffum was handling registration renewals with fortitude.

Road Agent Buffum described paving plans for a segment of Middletown Road, specifically applying a one-inch coat of asphalt on approximately 1,250 feet of the road between the beginning of its paved section on Nye Hill and leading south to the intersection with the Dakin Road. The cost of the job was estimated as being between $15,000-$18,000. Prior to paving, a culvert atop Ny Hill will be replaced. There being adequate resources in the summer road maintenance budget, the selectmen agreed to the plan. It was agreed that paving further south of the Dakin Road will be undertaken after the city of Keene has completed its work on Babbidge Dam.

Michelle Drogue submitted a letter of resignation from the chairmanship of the Roxbury Conservation Commission. She explained that her work schedule does not leave enough time and flexibility to attend to the demands of the position.

The selectmen attended to general administrative functions.

The manifest was filled out by Selectman Funk and signed. There being no further business the meeting was adjourned at 6:40 p.m.
