This brochure provides information about the qualifications and business practices of Symphony Financial, Ltd. Co. (hereinafter “Symphony” or the “Firm”). If you have any questions about the contents of this brochure, please contact the Firm at this telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC’s website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

Since Symphony's last annual amendment filing on January 14, 2019 Alejandro Tapia and Andrew Oak have begun offering investment advisory services under the d.b.a. ARS Private Wealth Management.

Item 4. Advisory Business

Symphony offers a variety of advisory services, which include Personal Choice Retirement Account self-directed retirement account management (PCRA), financial planning, consulting, and portfolio management services. Prior to Symphony rendering any of the foregoing advisory services, clients are required to enter one or more written agreements with Symphony setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

Symphony has been registered as an investment adviser since June 23, 2014, and is wholly owned by Wallace Carr Burgoyne, Jr. As of December 31, 2018, Symphony had \$241,463,184 assets under management, all of which is managed on a discretionary basis.

While this brochure generally describes the business of Symphony, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or any other person who provides investment advice on Symphony’s behalf and is subject to the Firm’s supervision or control.

Financial Planning and Consulting Services

Symphony may offer clients financial planning and consulting services, which may include any or all the following functions:

- Business Planning
- Cash Flow Forecasting
- Trust and Estate Planning
- Financial Reporting
- Investment Consulting
- Insurance Planning
- Retirement Planning
- Risk Management
- Charitable Giving
- Distribution Planning
- Tax Planning
- Manager Due Diligence

While each of these services is available on a stand-alone basis, they are typically rendered in conjunction with investment portfolio management as part of an investment management engagement (described in more detail below).

In performing these services, Symphony is not required to verify any information received from the client or from the client’s other professionals (e.g., attorneys, accountants, etc.) and is expressly authorized to rely on such information. Symphony may recommend clients engage the Firm for additional related services, its Supervised Persons in their individual capacities as insurance agents or registered

representatives of a broker-dealer and/or other professionals to implement its recommendations. Clients are advised that a conflict of interest exists if clients engage Symphony or its affiliates to provide additional services for compensation. Clients retain absolute discretion over all decisions regarding implementation and are under no obligation to act upon any of the recommendations made by Symphony under a financial planning or consulting engagement. Clients are advised that it remains their responsibility to promptly notify the Firm of any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Symphony's recommendations and/or services.

Investment Management Services

Symphony manages client investment portfolios on a discretionary basis. Investment management services may include a broad range of comprehensive financial planning, consulting services and portfolio management.

The Firm provides its portfolio management services through the Strategic Wealth Management program offered by LPL Financial LLC ("LPL Financial"), a registered investment adviser and broker-dealer. LPL Financial is independently owned and operated and not affiliated with the Firm. LPL Financial services include both non-wrap fee and wrap-fee programs. Please refer to Symphony's Part 2A Appendix 1 of Form ADV: Wrap Fee Program Brochure for a description of services and fees.

A wrap fee program is an advisory program under which a specified fee not based directly upon transactions in a client's account is charged for the execution of client transactions and investment advisory services. From an investment management perspective, there is not a fundamental difference in the way Symphony manages wrap and non-wrap accounts. The only significant difference is whether the Firm or the client is responsible for securities brokerage commissions and transactions fees.

As part of its non-wrap fee portfolio management services, Symphony primarily allocates client assets among various mutual funds, exchange-traded funds ("ETFs"), individual debt and equity securities and options in accordance with their stated investment objectives. In addition, Symphony may also recommend that certain eligible clients invest in privately placed securities, which may include debt, equity and/or interests in pooled investment vehicles (e.g., hedge funds).

Where appropriate, the Firm may also provide advice about any type of legacy position or other investment held in client portfolios. Clients may engage Symphony to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, Symphony directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product's provider.

Symphony tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. Symphony consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients

are advised to promptly notify Symphony if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients may impose reasonable restrictions or mandates on the management of their accounts if Symphony determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm's management efforts.

Self-Directed Retirement Account Management

Symphony may self-directed retirement account management. Through this service Symphony will consult with the client to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. The advisor will then make recommendations regarding the products available to the sponsored program. If the Client chooses to engage Symphony to manage their account(s), the Client will execute an agreement which will allow the advisor on the account to log in and manage the Client's account(s).

As of December 31, 2018, the Adviser had \$ 241,463,184 in assets under management.

ERISA Fiduciary

Symphony Financial understands and attests that they are an ERISA fiduciary as defined in the Fiduciary Rule under the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986. Symphony Financial adheres to the Impartial Conduct Standards (including the "best interest" standard, reasonable compensation and no misrepresented information), as a condition for relying upon the Best Interest Contract Exemption and the Class Exemption for Principal Transactions in Certain Assets Between Investment Advice Fiduciaries and Employee Benefit Plans and IRA during the transition period from June 9, 2017, through January 1, 2018. This relates to all ERISA accounts including Individual Retirement Accounts (IRAs).

Symphony Financial does not act as a non-discretionary or discretionary investment manager of the Plan as defined in Section 3(21) or 3(38) of the Employee Retirement Income Security Act of 1974.

Item 5. Fees and Compensation

Symphony offers services on a fee basis, which may include fixed and/or hourly fees, as well as fees based upon assets under management. Additionally, certain of the Firm's Supervised Persons, in their individual capacities, may offer securities brokerage services and/or insurance products under a separate commission-based arrangement.

Financial Planning and Consulting Fees

Symphony generally charges a fixed and/or hourly fee for providing financial planning and consulting services under a stand-alone engagement. These fees are negotiable, but generally range from \$1,000 to \$15,000 on a fixed fee basis and/or up to \$450 on an hourly basis, depending upon the scope and complexity of the services and the professional rendering the financial planning and/or consulting services.

The terms and conditions of the financial planning and/or consulting engagement are set forth in the Advisory Agreement and Symphony generally requires one-half of the fee (estimated hourly or fixed) payable upon execution of the Advisory Agreement. The outstanding balance is generally due upon delivery of the financial plan or completion of the agreed upon services.

Investment Management Fees

Symphony offers investment management services for an annual fee based on the amount of assets under the Firm's management. This management fee generally varies between 25 and 200 basis points (0.25% – 2.00%), depending upon the size and composition of a client's portfolio and the type of services rendered.

The Account Fee is based on the value of assets in the account, including cash holdings, and is payable quarterly in advance. For purposes of calculating Account Fees, the account quarter will be based on the appropriate fee cycle. Fee cycles are as follows and will be based upon the date in which the client funds their account(s):

Cycle 1	Cycle 2	Cycle 3
January	February	March
April	May	June
July	August	September
October	November	December

The Account Fee is due at the beginning of the quarter following account inception and will include the prorated fee for the initial quarter in addition to the standard quarterly fee for the upcoming quarter. Subsequent Account Fee payments are due and will be assessed at the beginning of each quarter based on the account value as of the close of business on the last business day of the preceding quarter. Additional deposits and withdrawals will be added or subtracted from portfolio assets on a prorated basis to adjust the Account Fee.

In the event the Advisory Agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding portion of the fee is charged to the client, as appropriate.

Additionally, for asset management services the Firm provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), Symphony may negotiate a fee rate that differs from the range set forth above.

Self-Directed Retirement Account Management

Symphony offers Personal Choice Retirement Account self-directed retirement account management services for an annual fee based on the amount of assets under the Firm's management. This management fee generally varies between 25 and 200 basis points (0.25% - 2.00%), depending upon the size and composition of a client's portfolio and the type of services rendered.

The Account Fee is based on the value of assets in the account, including cash holdings, and is payable quarterly in advance. For purposes of calculating Account Fees, the account quarter will be based on the appropriate fee cycle. Fee cycles are as follows and will be based upon the date in which the client funds their account(s):

Cycle 1	Cycle 2	Cycle 3
January	February	March
April	May	June
July	August	September
October	November	December

The Account Fee is due at the beginning of the quarter following account inception and will include the prorated fee for the initial quarter in addition to the standard quarterly fee for the upcoming quarter. Subsequent Account Fee payments are due and will be assessed at the beginning of each quarter based on the account value as of the close of business on the last business day of the preceding quarter. Additional deposits and withdrawals will be added or subtracted from portfolio assets on a prorated basis to adjust the Account Fee.

In the event the Advisory Agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding portion of the fee is charged to the client, as appropriate.

Fee Payment Authorization

If the Client has indicated on this agreement that Symphony will have fee payment authority over all accounts of the Client, the Client authorizes Schwab to pay annual account fee, per the agreed upon fee rate above, and related fees from the Client's account(s) to Symphony in the amount of their instruction. The Client has authorized Symphony in writing to receive fee payments directly from the Client's account(s). Schwab may rely on the instructions submitted by Symphony, and will have no responsibility to confirm those instructions with the Client or verify the fees. Schwab may redeem money market fund shares in the Client's account(s) to the extent necessary to pay these fees. Symphony's fees debited from the Client's account(s) will appear on the Client's Schwab statements, which will be issued at least quarterly.

PayPal

Under certain circumstances the Adviser will allow the client to submit payment via PayPal. In this situation we will submit an invoice to the client's address of record or via electronic mail and the client will submit payment via PayPal link accessible from the electronic invoice or our website; <http://www.4-sf.com/>. Fees are due and payable upon receipt of our invoice.

Fee Discretion

Symphony may, in its sole discretion, negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Additional Fees and Expenses

In addition to the advisory fees paid to Symphony, clients may also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions, including those recommended by the Firm (collectively “Financial Institutions”). These additional charges may include securities brokerage commissions, transaction fees, custodial fees, fees attributable to alternative assets, reporting charges, fees charged by the Independent Managers, margin costs, charges imposed directly by a mutual fund or ETF in a client’s account, as disclosed in the fund’s prospectus (*e.g.*, fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. The Firm’s brokerage practices are described at length in Item 12, below.

Direct Fee Debit

Clients generally provide Symphony and/or certain Independent Managers with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to Symphony. Alternatively, clients may elect to have Symphony send a separate invoice for direct payment.

Use of Margin

Symphony may be authorized to use margin in the management of the client’s investment portfolio. In these cases, the fee payable will be assessed net of margin such that the market value of the client’s account and corresponding fee payable by the client to Symphony will not be increased.

Account Additions and Withdrawals

Clients may make additions to and withdrawals from their account at any time, subject to Symphony’s right to terminate an account. Additions may be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or declines to accept particular securities into a client’s account. Clients may withdraw account assets on notice to Symphony, subject to the usual and customary securities settlement procedures. However, the Firm generally designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client’s investment objectives.

Symphony may consult with its clients about the options and implications of transferring securities. Clients are

advised that when transferred securities are liquidated, they may be subject to transaction fees, short-term redemption fees, fees assessed at the mutual fund level (e.g., contingent deferred sales charges) and/or tax ramifications.

Commissions and Sales Charges for Recommendations of Securities

Clients can engage certain persons associated with Symphony to render securities brokerage services under a separate commission-based arrangement. Clients are under no obligation to engage such persons and may choose brokers or agents not affiliated with Symphony.

Under this arrangement, the Firm's Supervised Persons, in their individual capacities as registered representatives of LPL Financial, may provide securities brokerage services and implement securities transactions under a separate commission based arrangement. Supervised Persons may be entitled to a portion of the brokerage commissions paid to LPL Financial, as well as a share of any ongoing distribution or service (trail) fees from the sale of mutual funds. Symphony may also recommend no-load or load-waived funds, where no sales charges are assessed. Prior to effecting any transactions, clients are required to enter into a separate account agreement with LPL Financial.

A conflict of interest exists to the extent that Symphony recommends the purchase or sale of securities where its Supervised Persons receive commissions or other additional compensation as a result of the Firm's recommendation. The Firm has procedures in place to ensure that any recommendations made by such Supervised Persons are in the best interest of clients. For certain accounts covered by the Employee Retirement Income Security Act of 1974 ("ERISA") and such others that Symphony, in its sole discretion, deems appropriate, Symphony may provide its investment advisory services on a fee-offset basis. In this scenario, Symphony may offset its fees by an amount equal to the aggregate commissions and 12b-1 fees earned by the Firm's Supervised Persons in their individual capacities as registered representatives of LPL Financial.

Item 6. Performance-Based Fees and Side-by-Side Management

Symphony does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Item 7. Types of Clients

Symphony offers services to individuals, trusts, estates, charitable organizations, corporations and business entities.

Item 8. Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Symphony primarily utilizes a combination of fundamental and technical methods of analysis. Fundamental analysis involves an evaluation of the fundamental financial condition and competitive position of a particular fund or issuer. For Symphony, this process typically involves an analysis of an issuer's management team, investment strategies, style drift, past performance, reputation and financial strength in relation to the asset class concentrations and risk exposures of the Firm's model asset allocations. A substantial risk in relying upon fundamental analysis is that while the overall health and position of a company may be good, evolving market conditions may negatively impact the security.

Technical analysis involves the examination of past market data rather than specific issuer information in determining the recommendations made to clients. Technical analysis may involve the use of mathematical based indicators and charts, such as moving averages and price correlations, to identify market patterns and trends which may be based on investor sentiment rather than the fundamentals of the company. A substantial risk in relying upon technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that Symphony will be able to accurately predict such a reoccurrence.

Investment Strategies

The Firm generally uses a long-term investment philosophy to provide individual advice based on each client's risk tolerance. Symphony reviews its clients' long-term and short-term financial needs and objectives, and risk tolerance or risk-aversion. Investment recommendations are based on information provided to the Firm by its clients, including information gathered in response to Firm questionnaires and personal discussions with the clients. The Firm designs each client's investment strategy based on a thorough evaluation of the individual goals and objectives of each client. After analyzing a client's financial situation and understanding the client's individual investment objectives, Symphony generally recommends investment programs sponsored by LPL Financial. On a continuous basis, the Firm implements and monitors each aspect of the strategy.

Risk of Loss

Market Risks

Investing involves risk, including the potential loss of principal, and all investors should be guided accordingly. The profitability of a significant portion of Symphony's recommendations and/or investment decisions may depend to a great extent upon correctly assessing the future course of price movements of stocks, bonds and other asset classes. There can be no assurance that Symphony will be able to predict those price movements accurately or capitalize on any such assumptions.

Mutual Funds and ETFs

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund's

underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholder's fees (e.g., sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to actual NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue

to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Use of Independent Managers

As stated above, Symphony may select certain Independent Managers to manage a portion of its clients' assets. In these situations, Symphony continues to conduct ongoing due diligence of such managers, but such recommendations rely to a great extent on the Independent Managers' ability to successfully implement their investment strategies. In addition, Symphony generally may not have the ability to supervise the Independent Managers on a day-to-day basis.

Use of Private Collective Investment Vehicles

Symphony recommends that certain clients invest in privately placed collective investment vehicles (e.g., hedge funds, private equity funds, etc.). The managers of these vehicles have broad discretion in selecting the investments. There are few limitations on the types of securities or other financial instruments which may be traded and no requirement to diversify. Hedge funds may trade on margin or otherwise leverage positions, thereby potentially increasing the risk to the vehicle. In addition, because the vehicles are not registered as investment companies, there is an absence of regulation. There are numerous other risks in investing in these securities. Clients should consult each fund's private placement memorandum and/or other documents explaining such risks prior to investing.

Options

Options allow investors to buy or sell a security at a contracted "strike" price at or within a specific period

of time. Clients may pay or collect a premium for buying or selling an option. Investors transact in options to either hedge (i.e., limit) losses in an attempt to reduce risk or to speculate on the performance of the underlying securities. Options transactions contain a number of inherent risks, including the partial or total loss of principal in the event that the value of the underlying security or index does not increase/decrease to the level of the respective strike price. Holders of options contracts are also subject to default by the option writer which may be unwilling or unable to perform its contractual obligations.

Use of Margin

While the use of margin borrowing can substantially improve returns, it may also increase overall portfolio risk. Margin transactions are generally effected using capital borrowed from a Financial Institution, which is secured by a client's holdings. Under certain circumstances, a lending Financial Institution may demand an increase in the underlying collateral. If the client is unable to provide the additional collateral, the Financial Institution may liquidate account assets to satisfy the client's outstanding obligations, which could have extremely adverse consequences. In addition, fluctuations in the amount of a client's borrowings and the corresponding interest rates may have a significant effect on the profitability and stability of a client's portfolio.

Item 9. Disciplinary Information

Symphony has not been involved in any legal or disciplinary events that are material to a client's evaluation of its advisory business or the integrity of its management.

Item 10. Other Financial Industry Activities and Affiliations

Registered Representatives of a Broker/Dealer

Certain of the Firm's Supervised Persons are registered representatives of LPL Financial and may provide clients with securities brokerage services under a separate commission-based arrangement. This arrangement is described at length in Item 5.

Licensed Insurance Agents

A number of the Firm's Supervised Persons are licensed insurance agents and may offer certain insurance products on a fully-disclosed commissionable basis. A conflict of interest exists to the extent that Symphony recommends the purchase of insurance products where its Supervised Persons may be entitled to insurance commissions or other additional compensation. The Firm has procedures in place whereby it seeks to ensure that all recommendations are made in its clients' best interests regardless of any such affiliations.

Fees from Independent Managers

As discussed above, Symphony recommends that certain clients authorize the active discretionary management of a portion of their assets by and/or among certain Independent Managers. In certain circumstances the Firm's compensation is included in the advisory fee charged by such Independent Managers. There may be a conflict of interest to choose such Independent Managers; however, Symphony evaluates Independent Managers objectively and not based on the amount of compensation it may receive from a particular Independent Manager.

Item 11. Code of Ethics

Symphony has adopted a code of ethics in compliance with applicable securities laws ("Code of Ethics") that sets forth the standards of conduct expected of its Supervised Persons. Symphony's Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of Symphony's personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (*e.g.*, initial public offerings, limited offerings). However, the Firm's Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm's policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person with access to this information may knowingly effect for themselves or for their immediate family (*i.e.*, spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or
- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers' acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issued by mutual funds or money market funds; and (iv) shares issued by unit investment trusts that are invested exclusively in one or more mutual funds.

Clients and prospective clients may contact Symphony to request a copy of its Code of Ethics.

ERISA Conflicts of Interest

We act in a fiduciary capacity as required by SEC and state Regulations. If a conflict of interest arises between us and you, we shall make every effort to resolve the conflict in your favor. Conflicts of interest may also arise in the allocation of investment opportunities among the accounts that we advise. We will seek to allocate investment opportunities according to what we believe is appropriate for each account. We also adhere to the fiduciary standards of ERISA for all ERISA accounts. We adhere to the Impartial Conduct Standards which includes the “best interest” standard, reasonable compensation and no misrepresentation of information. We have policies and procedures in place to monitor our adherence to our fiduciary obligation. We strive to do what is in the best interests of all the accounts we advise.

Item 12. Brokerage Practices

Recommendation of Broker/Dealers for Client Transactions

Symphony generally recommends that clients utilize the custody, brokerage and clearing services of LPL Financial, Charles Schwab or Fidelity Investments (“Custodians”) for investment management accounts.

Factors which Symphony considers in recommending the custodians to clients include their respective financial strength, reputation, execution, pricing, research and service. The Custodians may enable the Firm to obtain many mutual funds without transaction charges and other securities at nominal transaction charges. The commissions and/or transaction fees charged by the Custodians may be higher or lower than those charged by other Financial Institutions.

The commissions paid by Symphony’s clients to the Custodians comply with the Firm’s duty to obtain “best execution.” Clients may pay commissions that are higher than another qualified Financial Institution might charge to effect the same transaction where Symphony determines that the commissions are reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Financial Institution’s services, including among others, the value of research provided, execution capability, commission rates and responsiveness. Symphony seeks competitive rates but may not necessarily obtain the lowest possible commission rates for client transactions.

Symphony periodically and systematically reviews its policies and procedures regarding its recommendation of Financial Institutions in light of its duty to obtain best execution.

Software and Support Provided by Financial Institutions

Symphony may receive without cost from the Custodians computer software and related systems support, which allow Symphony to better monitor client accounts maintained at the Custodians. Symphony may receive the software and related support without cost because the Firm renders investment management services to clients that maintain assets at the Custodians. The software and support are not provided in connection with securities transactions of clients (i.e., not “soft dollars”). The software and related systems support may benefit Symphony, but not its clients directly. In fulfilling its duties to its clients, Symphony

endeavors at all times to put the interests of its clients first. Clients should be aware, however, that Symphony's receipt of economic benefits from a broker/dealer creates a conflict of interest since these benefits may influence the Firm's choice of broker/dealer over another that does not furnish similar software, systems support or services.

Specifically, Symphony may receive the following benefits from the Custodians:

- Receipt of duplicate client confirmations and bundled duplicate statements;
- Access to a trading desk that exclusively services its institutional traders;
- Access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts;
- Access to an electronic communication network for client order entry and account information;
- Travel, meals, entertainment, and admission to educational or due diligence programs; and
- Marketing support including sponsorship of client events.

Directed Brokerage

The client may direct Symphony in writing to use a particular Financial Institution to execute some or all transactions for the client. In that case, the client will negotiate terms and arrangements for the account with that Financial Institution and the Firm will not seek better execution services or prices from other Financial Institutions or be able to "batch" client transactions for execution through other Financial Institutions with orders for other accounts managed by Symphony (as described above). As a result, the client may pay higher commissions or other transaction costs, greater spreads or may receive less favorable net prices, on transactions for the account than would otherwise be the case. Subject to its duty of best execution, Symphony may decline a client's request to direct brokerage if, in the Firm's sole discretion, such directed brokerage arrangements would result in additional operational difficulties or violate restrictions imposed by other broker-dealers (as further discussed below).

Commissions or Sales Charges for Recommendations of Securities

As discussed above, certain Supervised Persons in their respective individual capacities are registered representatives of LPL Financial. These Supervised Persons are subject to FINRA Rule 3040 which restricts registered representatives from conducting securities transactions away from their broker-dealer unless LPL Financial provides written consent. Therefore, clients are advised that certain Supervised Persons may be restricted to conducting securities transactions through LPL Financial if they have not secured written consent from LPL Financial to execute securities transactions through a different broker-dealer. Absent such written consent or separation from LPL Financial, these Supervised Persons are prohibited from executing securities transactions through any broker-dealer other than LPL Financial under its internal supervisory policies. The Firm is cognizant of its duty to obtain best execution and has implemented policies and procedures reasonably designed in such pursuit.

Trade Aggregation

Transactions for each client generally will be effected independently, unless Symphony decides to purchase or sell the same securities for several clients at approximately the same time. Symphony may (but is not obligated to) combine or “batch” such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Firm’s clients differences in prices and commissions or other transaction costs that might not have been obtained had such orders been placed independently. Under this procedure, transactions will generally be averaged as to price and allocated among Symphony’s clients pro rata to the purchase and sale orders placed for each client on any given day. To the extent that the Firm determines to aggregate client orders for the purchase or sale of securities, including securities in which Symphony’s Supervised Persons may invest, the Firm generally does so in accordance with applicable rules promulgated under the Advisers Act and no-action guidance provided by the staff of the U.S. Securities and Exchange Commission. Symphony does not receive any additional compensation or remuneration as a result of the aggregation.

In the event that the Firm determines that a prorated allocation is not appropriate under the particular circumstances, the allocation will be made based upon other relevant factors, which may include: (i) when only a small percentage of the order is executed, shares may be allocated to the account with the smallest order or the smallest position or to an account that is out of line with respect to security or sector weightings relative to other portfolios, with similar mandates; (ii) allocations may be given to one account when one account has limitations in its investment guidelines which prohibit it from purchasing other securities which are expected to produce similar investment results and can be purchased by other accounts; (iii) if an account reaches an investment guideline limit and cannot participate in an allocation, shares may be reallocated to other accounts (this may be due to unforeseen changes in an account’s assets after an order is placed); (iv) with respect to sale allocations, allocations may be given to accounts low in cash; (v) in cases when a pro rata allocation of a potential execution would result in a de Minimis allocation in one or more accounts, the Firm may exclude the account(s) from the allocation; the transactions may be executed on a pro rata basis among the remaining accounts; or (vi) in cases where a small proportion of an order is executed in all accounts, shares may be allocated to one or more accounts on a random basis.

Privacy

As discussed previously, certain associated persons of the Symphony are registered representatives of LPL Financial. As a result of this relationship, LPL Financial may have access to certain confidential information (e.g., financial information, investment objectives, transactions and holdings) about Symphony’s clients, even if client does not establish any account through LPL. If you would like a copy of the LPL Financial privacy policy, please contact Amber Walker at (281) 272-6803.

Item 13. Review of Accounts

Account Reviews

Symphony monitors client portfolios on a continuous and ongoing basis while regular account reviews are conducted on at least a quarterly basis. Such reviews are conducted by the Firm's investment adviser representatives. All investment advisory clients are encouraged to discuss their needs, goals and objectives with Symphony and to keep the Firm informed of any changes thereto. The Firm contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and quarterly to discuss the impact resulting from any changes in the client's financial situation and/or investment objectives.

Account Statements and Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from Symphony and/or an outside service provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from Symphony or an outside service provider.

Item 14. Client Referrals and Other Compensation

Client Referrals

In the event a client is introduced to Symphony by either an unaffiliated or an affiliated solicitor, the Firm may pay that solicitor a referral fee in accordance with applicable state securities laws. Unless otherwise disclosed, any such referral fee is paid solely from Symphony's investment management fee and does not result in any additional charge to the client. If the client is introduced to the Firm by an unaffiliated solicitor, the solicitor is required to provide the client with Symphony's written brochure(s) and a copy of a solicitor's disclosure statement containing the terms and conditions of the solicitation arrangement. Any affiliated solicitor of Symphony is required to disclose the nature of his or her relationship to prospective clients at the time of the solicitation and will provide all prospective clients with a copy of the Firm's written brochure(s) at the time of the solicitation.

Item 15. Custody

The Advisory Agreement and/or the separate agreement with any Financial Institution generally authorize Symphony and/or the Independent Managers to debit client accounts for payment of the Firm's fees and to directly remit that those funds to the Firm in accordance with applicable custody rules. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account

transactions, including any amounts paid to Symphony.

Item 16. Investment Discretion

Symphony may be given the authority to exercise discretion on behalf of clients. Symphony is considered to exercise investment discretion over a client's account if it can effect and/or direct transactions in client accounts without first seeking their consent. Symphony is given this authority through a power-of-attorney included in the Advisory Agreement between Symphony and the client.

Clients may request a limitation on this authority (such as certain securities not to be bought or sold). Symphony takes discretion over the following activities:

- The securities to be purchased or sold;
- The amount of securities to be purchased or sold;
- When transactions are made; and
- The Independent Managers to be hired or fired.

Item 17. Voting Client Securities

Declination of Proxy Voting Authority

Symphony generally does not accept the authority to vote a client's securities (i.e., proxies) on their behalf. Clients receive proxies directly from the Financial Institutions where their assets are custodied and may contact the Firm at the contact information on the cover of this brochure with questions about any such issuer solicitations.

Item 18. Financial Information

Symphony is not required to disclose any financial information due to the following:

- The Firm does not require or solicit the prepayment of more than \$1,200 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.
