

## **GOVERNMENT OF NIUE**

Wednesday 16 May, 2018. Niue Department of Health

### **Press Release**

#### **NIUE HIGH SCHOOL WATER NOW CLEARED FOR DRINKING**

The Niue Department of Health would like to inform the general public. That the water at the Niue High School (NHS) is now safe for all of the students and teachers in the school to drink.

The installation program for the ultraviolet water purification system is completed over the weekend and the testing of the water quality following installation has also been completed on Tuesday 15 May, 2018.

We would like to acknowledge Mr. Charlie Roughan for his dedication towards the installation processes for the ultraviolet water purification system for both the Niue High School and the Niue Primary School in the past two weeks. Not forgetting the support and collaboration from the Department of Education, Niue Department of Health, Department of Utilities, PMCU and all the other Niue Government Officials who have contributed in one way or other to the planning, securing of funds, procurement and the successful installation of the two ultraviolet water purification systems for the Early Childhood Education (ECE), Niue Primary School (NPS) and the Niue High School (NHS).

We'd also like to acknowledge all the parents for your patience and cooperation from when the boiling water notice was first send out to the general public in October last year right up until this week.
