AMSG Wins $30M Department of the Army, Training and Doctrine Command (TRADOC) Contract for Knowledge, Process, and Performance Management (KPPM) Services

Dumfries, VA March 23, 2017 — Advanced Management Strategies Group (AMSG), a Service Disabled Veteran Owned Small Business (SDVOSB) announced today that it has been awarded a $30M, 5-Year contract, for TRADOC to provide KPPM services, in direct support to TRADOC HQ staff and TRADOC subordinate organizations, Centers of Excellence (CoEs) and schools located at various sites within the United States. The KPPM Program is based on a performance management orientation, focusing on outcomes rather than activities, and unfettered knowledge flows and organizational collaboration needed by cross-functional teams to be successful in today's environment. AMSG supports the TRADOC KPPM Program in creating and implementing the TRADOC KPPM strategy and helping to improve organizational performance by establishing an environment and culture that efficiently shares knowledge, and limited resources, leverages data/content, and continuously innovates and improves work and business processes. The KPPM Program effectively harnesses the critical relationship between people, process, and technology in creating, applying, organizing, and transferring experience and expertise to support organizational learning and timely decision-making.

As the prime contractor, AMSG reports to the TRADOC, Chief Knowledge Officer (CKO) to provide Knowledge, Process, and Performance Management (KPPM) services, integrating delivery of SharePoint services and support of KM and CPI development across 11 Army Training Centers of Excellence. This effort includes delivery and integration of 45 unique deliverables and development of the TRADOC Enterprise "KPPM Community of Practice". AMSG provides subject matter expertise in developing the TRADOC KPPM Strategy and all supporting implementation and integration plans including Capability Adoption, Talent Management, Knowledge Management, and Performance Management. AMSG uses Agile development methodologies for all SharePoint Capability Delivery and integration of Third-Party Tools, Add-ins and Bolt-ons, maintains requirements traceability and manages configuration of deployed capabilities.
