WELCOME!

## A Message from the Director

Welcome to the 2019-2020 St. Paul's Littlest Angel Preschool year! As I anticipate the beginning of the school year, I contemplate the little ones that will be coming through our doors. I look forward to getting to know our new friends and reacquainting with our returning friends after the summer months of growth! Each September I look at the smiling, yet anxious looks on the faces of parents and I want you to know that we understand. We also understand that you send your child to school with the desire that they receive the very best education. Providing experiences which teach children *how to live* is of utmost importance, because we know that education is not just what a child learns from reading a book (although much can be learned from reading) or from memorizing letters, numbers, shapes and facts (although these are important for schooling). The most important education is that which teaches us **HOW** to think, how to get along, how to persevere and how to succeed....these being the most important skills we need in order "*to live*".

We also understand that education is what happens when we discover *meaningful information through experience*. We provide, therefore, an environment rich in a variety of meaningful and exciting materials and experiences so that your child can *explore* and *discover* and *absorb* by doing, as well as growth experiences which will teach them skills to live *happily*. Through this play your child will grow in ability, social skills and confidence to move forward and outward to explore and discover (and *learn*) *even more*.

Please remember, we recognize YOU are your child's best and most important teacher.
