

**Barry Brady
St. Joe
Community
Center, President**

During this exciting community venture, I have felt a tremendous amount of joy and fulfillment in working with the community center project. I continue to be fueled with your smiles and encouraging words. I am confident that we have strengthened the corner-stone of this community which was established 100 years ago and will continue on through future generations. I am excited to pass our community heritage and history down to our children, great-grandchildren and so on; and to watch as our community prospers in the future.”

Always,
Barry Brady
