

Junior Gold mining company seeks equity Investors to finance \$250 K for exploration

- **We are looking to raise \$250,000 dollars**
- **We are prepared to start to Explore the Project**
- **The Company currently has around 1,000 shareholders.**
- **The property is known to host Gold, Silver and Copper Mineralization**
- **The property has old workings and has potential to host economical amounts of Mineable Gold**
- **Grab chip samples have been assayed to values that range from 2 to 40 grs of Gold per ton**

Mining activity

- ▣ Epithermal Veins Gold Deposit with near identical geology with old workings
- ▣ Multi-million ounce potential
- ▣ Preparation of NI 43-101 Report
- ▣ Drill ready in under six months.

Strategy

Remap and resample area (verification)

Target Drill Testing (core)

Step-out and fill-in drilling (RC)

Mapping and Sampling within the primary exploration area.
