I, _____, understand that meters are read around the 17th of each month. Water bills are mailed out within the next 5 days after reading meters. Bills are due upon receipt. A 10% late charge is added on the 11th of each month. Water service is disconnected on the 21st of each month, if payment is not received. NOTE: if the 21st falls on a Saturday or Sunday, cut-offs roll to the following Monday. A processing/turn-off fee of \$50 is added to each account on turn off day.

I, _____, acknowledge that I will notify the city of my intention to have service discontinued. If I, _____, do not give proper notice to the City, the City will apply my deposit to my final bill after 30 days.

SERVICE AGREEMENT

PURPOSE. The City of Tye is responsible for protecting the drinking water supply from contamination or pollution, which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the plumbing restrictions, which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the City of Tye will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.

RESTRICTIONS. The following unacceptable practices are prohibited by State regulations.

- A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
- B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
- C. No connection which allows water to be returned to the public drinking water supply is permitted.
- D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection, which provides water for human use.
- E. No solder or flux which contains more than 0.2 percent lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

SERVICE AGREEMENT. The following are the terms of the service agreement between the City of Tye (the water system) and _____, (the Customer).

- A. The Water System will maintain a copy of this agreement as long as the Customer and/or the premises are connected to the Water System.
- B. The customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the Water System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the water distribution. The inspections shall be conducted during the Water System's normal business hours.
- C. The Water System shall notify the Customer in writing of any cross-connection or other potential contamination hazard, which has been identified during the initial inspection or the periodic re-inspection.
- D. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
- E. The Customer shall at his expense, properly install, test, and maintain any backflow prevention device required by the Water System. Copies of all testing and maintenance records shall be provided to the Water System.

ENFORCEMENT. If the Customer fails to comply with the terms of the Service Agreement, the Water System shall at its option, terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

Indemnity Waiver

I, _____, do hereby waive my right to be present during the time in which the City of Tye shall commence water meter connections for the address commonly known as _____ . I hereby indemnify and hold harmless the City of Tye, its agents and employees from and against any and all claims, damages, losses and/or expenses, including, but not limited to, attorney's fees arising out of or resulting from any negligent performance of water connections services on the property referenced herein.

Signed this _____ day of _____, 20_____.

(SIGNATURE)

Please return the completed application and waiver to our office, in City Hall, located at:
205 North Street or FAX 325-692-9322

If time permits you may mail application, waiver, deposit and a good copy of your driver's license to:

City of Tye
Utility Department
PO Box 369
Tye, TX 79563-0369

Please be aware that this waiver is so City of Tye employees can turn the service on without anyone being present. It is in your best interest to ensure that all faucets, both inside and out, have been shut off completely. Otherwise, City of Tye employees will have to disconnect the service due to water running and a delay in connection will be unavoidable.

Unless we receive all the needed information, we cannot begin your water service
