FOR IMMEDIATE RELEASE

April 18, 2019

**SymSoil[®], Inc. Accrues Benchmark Angel Investor
Fastest Growing Agri-restoration Company Expanding**

SANTA ROSA, CA – April 18, 2019 - SymSoil, Inc., an agri-restoration leader in developing biological soil amendments is pleased to announce a milestone 10th Angel Investor. CEO Elizabeth Pearce said, “Announcing Angel Investors is not generally Press Release notable. But, as we get closer to this round’s goal of \$1.5M, our team is fully realizing SymSoil is not just a giant science experiment. We are poised to advance our hub and spoke operations throughout California and grow SymSoil to the decisive eco-ag disruptor we know it will be.”

Matt McNallan of Colorado added his vote of confidence by securing his place in SymSoil’s legacy. He is by trade analytical. He is an SQL DBA Specialist.

Professionally, Mr. McNallan has had inside looks at regulatory and food issues having created databases for watershed applications at the USDA. He also has worked with some of the finest traditional health care organizations in the country including DaVita Kidney Care and Mayo Clinic.

Understanding natural resources, the food chain supply line, and health care, Mr. McNallan feels his investment in SymSoil is aligned with potential to have a dramatic and positive impact on each of these industries. He says, “There is a lot of excitement for this company. It’s not just about returning tokens to the bank. Correcting historical choices regarding the environment and human health, SymSoil’s dedicated and talented leadership is unmatched.”
