

Crying is For Babies—Reviews

Rita Hofen

I have just finished reading Crying is for babies, I thoroughly enjoyed it and found it hard to put down. The life of Violet was such a hard life but she somehow managed to make herself into such a strong woman. It was heartbreaking to think of what she endured as a child, having her childhood taken from her in such a way. Tricia I am very impressed with the way you wrote her story. **10 out of 10!**

"I loved this book so much. The author wrote about the life of her sister and family in an amusing, loving and touching way. The book takes you through her sister's pain and the ups and downs of her life from a little girl in the 1930's to the present day."

"This story is a tribute to courage and gives a picture of England during World War II. I really enjoyed learning so much and also seeing the courageous actions of the main character. She refused to let a handicap destroy her life. The story is well told with bits of humor and also with sadness. Congrats to the author."
