CHAPTER 5

5.1 CONTESTANTS

- 5.1.1 WBRA Open races must have a minimum of 6 contestants entering at designated entry time to hold the race. Must pre-enter to be included in the draw. Must have call back time right after entries close so that open contestants may call back and find out if Open did fill.

- 5.1.3 Running positions must be drawn for by the Race Secretary and the order reversed for each go-round. Positions for all go-rounds must be posted.

- 5.1.5 All contestants are required to read the rules carefully. Failure to understand rules will not be accepted as an excuse.
- 5.1.6 Contestant is privileged if she desires to see the records of all contestants at the end of each go-round provided that said request is made at a convenient time for the Secretary and when the records are available.
- 5.1.7 Upon entering a barrel race, every contestant waives all claims against the show, rodeo or gymkhana management for any damage to property or injury sustained.

CHAPTER 6

6.1 BARREL RACE

- 6.1.1 Please note: arena conditions as well as the distance between barrels make it impossible to establish a record time in barrel racing.
- 6.1.2 Barrel racing is a timed event using brightly colored 55 gallon barrels. Plastic barrels are acceptable only if filled

with two inches of water, or an equivalent weight of sand, approximately one inch.

- 6.1.3 Both ends of the barrel must be closed.
- 6.1.4 There is to be only one contestant horse in the arena at a time during the barrel race, without exception.
- 6.1.5 The starting gates or gate will remain the same throughout the entire rodeo or race.
- 6.1.6 The start/finish line and the position for the barrels must be marked permanently for the entire race.
- 6.1.7 Any time contestant crosses starting line, time will begin. If timing line is crossed after run, this will result in a No Time. If contestant goes behind timers at any time, this will also result in a No Time.
- 6.1.8 Contestants will be assessed a five second penalty for knocking over a barrel. Touching barrel is permitted.
- 6.1.9 A barrel is considered down if it is more than 50% down.
- 6.1.10 May go either right or left barrel first, but must make one right and two left turns or one left and two right turns.
- 6.1.11 Running start is allowed. Contestant may cross the starting line anywhere between the first two barrels. Open contestants must proceed through the gate in a forward motion to position, turn and go or contestant will be flagged out. One (1) 360 degree turn is permitted in open races. If race rules posted at the office read otherwise they will take precedence over this rule.
- 6.1.12 Failure to follow the course disqualifies contestant for the go round and the average.
- 6.1.13 A horse cannot run more than one time in any given Open class.
- 6.1.14 If time-only runs are held before a WBRA race, barrels must be at least 15 feet off the markers.

6.2 RERUNS

- 6.2.1 Re-run will be given should default occur due to rodeo or race management. Any penalty incurred will be carried forward.

6.3 GROUND PREPARATION

- 6.3.1 Committee should be asked to prepare ground in the arena to be consistent throughout the event.
- 6.3.2 In slack, ground should be prepared as if it were any other performance.
- 6.3.3 When the ground at a race is or becomes unsafe, the race shall be stopped, ground reworked (if possible and only if re-working will correct the problem) and everyone that ran before reworking will have the option to run again or keep their time. Rakes will remain the same, regardless of how many horses run back. The Race Secretary will make the determination.
- 6.3.4 Producers must state on race approval how many runners per rake.

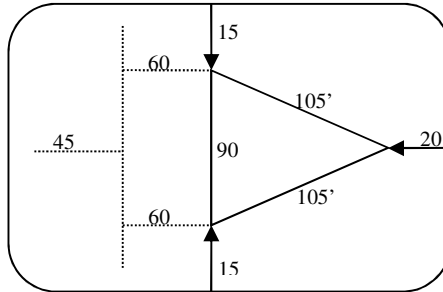

6.4 BARREL PATTERN

- 6.4.1 If the arena size and conditions permit, barrels must be set in a standard course. Standard course is 60 foot score, 90 feet between first and second barrels, 105 feet between first and third as well as second and third barrels.
- 6.4.2 In small arenas it is recommended the pattern be reduced proportionately to a standard barrel pattern.
- 6.4.3 Starting line: suggested starting line at least 60 ft. (20 yards) from barrels 1 and 2.
- 6.4.4 Distance from the chutes: starting and finishing line must be 45 feet (15 yards) from chutes or fence. If under this, an opening must be provided and kept clear for contestants to run through.

6.4.5 Distance from the fence: barrels 1 and 2 must be at least 15 feet from bucking chutes and/or fence. Barrel 3 must be at least 20 feet from bucking chutes and/or fence.

6.4.6 Small arena: suggested distance may vary depending on different arena situations:

- The score line should be 45 feet from the arena fence.
- Barrels 1 and 2 must be 15 feet from sides of arena.
- Barrel 3 must be 20 feet from back of the arena.

6.5 MARKING BARRELS

- 6.5.1 Person measuring and marking the barrel pattern must give a copy of the measurements to the Race Secretary when there is more than a single go on the pattern.
- 6.5.2 If the electric timer is being used, permanent markers should also be set for it. In marking the eye, a rectangle must be measured from 1st barrel to eye marker and 2nd barrel to eye marker.
- 6.5.3 It is the responsibility of each member to see barrel and timer markers are set before the performances begin and to check for markers prior to each performance, unless they are set by the judges.

- 6.5.4 When setting barrels, the barrels are to be set on the inside of the markers.
- 6.5.5 Recommended manner of marking barrels: use a 2x2 inch stake, 1 foot long. Sharpen one end and bore a 1 inch hole 3 inches down from the end. Put 3 feet of 1 inch rope or bailing twine through the hole. Fasten with wire around the top. Dig a hole and drive the stake into the ground. Cover with dirt leaving the rope ends sticking out. Tie bright cloth to the rope end.
- 6.5.6 Measuring to be done at the management's convenience by any member present in good standing. She must see that barrels are measured and marked properly.

CHAPTER 7

7.1 ELECTRIC TIMERS

- 7.1.1 Equipment necessary: 2 timers either 1 hand timer & 1 electric eye or 2 electric eyes. Both times need to be recorded. Race Secretaries are recommended to have a stopwatch on hand when hosting a race.
- 7.1.2 If no electric eye is used, a flagger will be positioned on the starting line and there will be two timers with watches who will average the times. If one electric eye is used, a backup watch is required and that person will position themselves behind the electric eye.
- 7.1.3 Set timer the same height and position for each performance and lock legs.
- 7.1.4 When WBRA rules take precedence when using an electric eye, if the timer fails on 25% or more contestants, backup times will be used. Times missed with electric eye will be dropped to 100ths.
- 7.1.5 If no electric eye is used and flagman fouls, judges' decision will be final. Timers and flagman cannot change

before a go-round is completed. Horse's nose shall be flagged both for start and finish.

- 7.1.6 Timers, flagmen and judges must be acceptable to the majority of the contestants. Their decision will be final.
