

Assembly instruction for Pfitfit point of purchase

Explode view

1. Assemble left side to back pieces & tap pegs into holes with hammer to connect back pieces to side pieces.

2. Assemble right side & tap pegs into other side back pieces.

Notes:

Assembly Tools Needed :

-Need hammer

-Screw driver

Disassembly tools

-Pliers or hammer and 3/16 punch

-Use 3/16 punch and tap peg out.

-To disassemble with pliers grip wood peg and pull out. There is a good chance you may damage peg so we include extra pegs just incase you have to take a peg out.

-If you have pegs that are loose, try a different peg because the diameter are a little different.
