24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

The Capital Improvement Program (CIP) Management Services consists of planning, design and construction of linear and vertical infrastructure in the water and sewer service areas; including piping, pumping, storage and other appurtenance structures like hydrants, valves, inflatable dams, diversion structures, and manholes. The program generally includes rehabilitation or replacement of small and large diameter water mains, rehabilitation of water, sanitary and storm pumping stations, rehabilitation of minor and major sewers, rehabilitation of storage facilities, condition assessment of water and sewer buried infrastructure, pumping stations and storage facilities. All projects and process changes will be planned and coordinated with existing operations and must be in full compliance with all applicable environmental regulations.

SZPM is a sub-constant to CH2M/Parsons JV team on this contract. We were slated to provide permitting support role and are expected to provide other management and engineering support services under this contract as well.

SZPM Subcontract value: \$214,300
