24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

This engineering program management services include inspection and assessment of linear infrastructure, structures and facilities; needs analysis and prioritization; flow monitoring and hydraulic modeling; justification and cost estimating of capital improvement projects; engineering and emergency response; urgent/emergency design and construction management; design review; evaluation of emerging technologies; advising on regulatory initiatives; evaluation of facilities and preparing operation and maintenance manuals; supporting permit acquisition; conducting environmental assessments; conducting training; and developing and updating information management systems.

SZPM is a sub-constant to Arcadis on this contract. Our task order is to prepare a pre-assessment report to identify the activities and constraints related to the work to be done by a future IDIQ Contractor(s) in connection with inspecting and assessing the 96-inch diameter Potomac Force Main (PFM). In addition, It has requested SZPM to identify all permits required to complete the inspection and condition assessment activities for 25 major pipeline rehab projects included in DC Water RFQ #485-WSA (Condition Assessment of Large Diameter Water Mains and Major Sewers). This Work Plan presents the activities, schedule and costs proposed for the preparation of the pre assessment report and the compilation of required permits.

SZPM Subcontract value: \$48,000
