<b>24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)</b>
--

SZ PM Consultants, Inc. (SZPM) was retained to conduct a Floodplain Analysis for the District Department Transportation (DDOT) Streetcar Maintenance and Storage Facility (MSF) at Site O (Pepco West 1). SZPM was a subconsultant to PB/WSP on this project.

This Floodplain Analysis looks into the effects of the proposed MSF on the existing 100 YR WSEL at the Site O. The study is based upon the effective FEMA Flood Insurance Study (FIS# 110001V000A) and Flood Insurance Rate Map (FIRM # 1100010039C) which were initially published on November 15, 1985 and then revised on September 27, 2010. Site O is located in Ward 7 within the 3400 Benning Road NE parcel, which encompasses both Sites O and P. The parcel is owned by the Potomac Electric Power Company (PEPCO). Site O, located on the westernmost portion of the parcel, is approximately 8.7 acres. The parcel was previously the site where the Pepco's Benning Road Power Plant was located. PEPCO ceased the power plant's operation in June 2012. The power plant has been demolished since, and the site is currently a vacant site. A technical report was developed to for this effort and the recommendations were presented in the report.
