Back in 1979, a passionately orchestrated experiment later revealed a compelling discovery within the Gospels own contents. Even though most of the scriptures' own text were used in the forming of this chronological collective gospel, never before has the story of Jesus and the *extents* of his wisdom flowed so smoothly, once the 'horror' of their lifestyle beliefs came to light.

While the original work may have been completed in 1984, its revelation was not fully realized until later in 1989. That was the beauty of it. The wording was not matched up to a theory in advance. Instead, hidden details were becoming clearer further on regarding the strain of those times and the importance Christ's input was to the peoples' *unwariness* and what they were forced to endure. Minor editing is all that's been added since. There still appears to be no collective Gospel equal to the *caliber* of this work.

*The wording originally comes from THE NEW TESTAMENT of our Lord and Savior Jesus Christ, the revised Challoner-Rheims version © 1941, then in the public domain, when this work began in 1979. Though earlier publications of this find have been produced, they included all that was learned at that time. The text also contained the original older wording. This version strictly focuses on just the collective gospel with over 990 individual words replaced with a more present day usage.*

This is an updated 'Deluxe Edition' to a previous work called the, **New Revised COLLECTIVE GOSPEL OF JESUS**, 'A Unified Scripture Portrayal of our Lord', published in 2010.

Though the result of this work revealed an eye-opening display on the strain of those times and the importance Christ's input was for the peoples' sake, could it somehow be given more visibility? A highlighting of the text had already been an idea for some time. After the input was completed, its presentation bumped it up to a whole new level.

In this edition, ALL the quotations have been **COLOR CODED™**, managing **ten** different colors. The dialogues come alive and bring out the power of the real calamity in those times. You can immediately identify with who's who, or which people are conversing at the time. Even without images, the story simply pops out at you. The use of italics to represent their thoughts, gave it even more depth. It doesn't feel like you're just reading the story, it feels like you're in it!!

***One of the most visible teaching tools available. Every motivated Christian will want to see this!***
