## Skid Steer Attachment's

### Grapples - Wood Chippers - Winches

Convert your skid steer into a  
Productive Forestry Machine!

Increase your productivity & get more work from your machine.

Loggers - handle bigger jobs by using an additional machine in your operation.

Tree Services & Landscapers - get into tight spaces without impacting your client's property.

Farmers & Landowners - keep your expensive Skid Steer working on a broader range of jobs.

We start with a Universal Skid Steer Mounting Plate and add a rugged piece of professional VALBY® or FARMI® forestry equipment.

You get a reliable, affordable solution.

# VALBY®

## Skid Steer Attachment's Additional features, benefits and Specifications.

Winches

FARMI® Skidding Winches  
The Gold Standard for 50 years!

- JL351 PHD - 7,700 lbs pull
- JL501 PHD - 11,000 lbs pull
- Contractor grade construction
- Best clutch in the industry!
- Large cable capacity
- Smooth wire rope extraction
- Reliable
- Easy to use

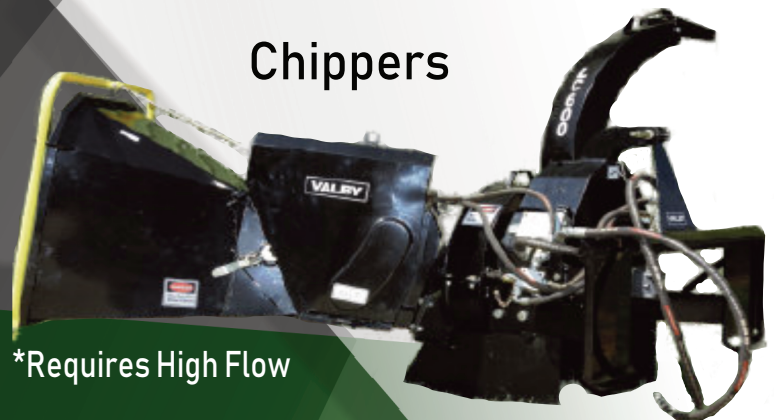

### FARMI® Forest

We take a FARMI® Winch, install it on a rugged VALBY® SS Quick Attach Plate and add a quality hydraulic motor to create the VALBY® SS Winch

- Easy to attach to your Skid Steer
- Chip branches, tree tops & logs to 6"
- Industrial bearings for rugged use (up to 2200 rpm)
- Super-hard Chromium Steel Knives for sharpness and longevity
- Uniform 1/2" chip

### Chippers

\*Requires High Flow

- Modern bypass design allows for a small minimum opening and smooth roll-in and release of logs
- Manufactured from HARDOX steel
- Continuous rotation rotators for dexterity
- Large, powerful cylinders for strength
- Double connection rods for good balance
- Steel belly plates to protect from underneath
- Requires two sets of hydraulics for rotation and clamping
- A Diverter Valve is available for Skid Steers with one-circuit

### Grapples from 36" to 55"
