

MBUSD's top priority is protecting the health and safety of students, staff, and the community. Therefore, in its response to COVID-19, the District remains committed to aligning with the guidance provided by the California Department of Public Health (CDPH) and the Los Angeles County Department of Public Health (LACDPH). Guidance from these agencies changes as Health Officer Orders are issued and rescinded, and the District updates its policies and practices accordingly. Please continue to refer to MBUSD's webpage "Keeping Our Schools Open" (<https://www.mbusd.org/apps/pages/KeepingOurSchoolsOpen>) for the most current information.
