Jim Russell
Whitewater Ranch LLC
90255 Fish Hatchery Rd.
Leaburg, OR 97489

Dear Jim:

Thanks for your continued commitment to Salmon-Safe! I am very happy to confirm that Whitewater Ranch has complied with the requirements for Salmon-Safe recertification without any conditions.

Based on its site visit in March 30, 2018, Oregon Tilth reports that your operation fully meets Salmon-Safe's required conditions, including stream and wetland area protection, irrigation efficiency, erosion and sedimentation control, fertility and pest management, animal management, and biodiversity. A Salmon-Safe certificate is enclosed for the acreage of Whitewater Ranch.

On the marketing side, Salmon-Safe looks forward to the ongoing partnership with Whitewater Ranch to promote its blueberries. Please let us know if there is more we can do to support your sales and marketing efforts.

Thank you for your commitment to environmentally sustainable agriculture. Please feel free to contact us with any questions.

Sincerely,

Anna Huttel
Certification Manager
