BIO

Carolyn Harrison is a ranch girl from the State of Idaho and a graduate of the University of Idaho, where she was a member of the Beta-Theta Chapter of the Kappa Alpha Theta sorority. While at the Theta house, Ms. Harrison was the Social Chairman and studied French and Spanish, attaining a Teacher's Certificate in each language and graduating with a 3.4 GPA.

She was also the University's Frosh Queen; colonel of Angel Flight, a college women's Air Force support group; Sigma Chi Little Sig; first runner-up in the ATO Esquire Girl contest; finalist in the Miss Wool contest; and first runner-up in the Holly Queen contest.

Ms. Harrison has over 47 years of technology licensing, marketing, public relations, business development, and sales experience in diverse fields and a variety of positions.

In 2013, Carolyn and her partner, Tom Harrison, signed an Exclusive License Agreement with the inventor and designer of the **PENTA BUSTER** debris-removal-and-access tool to market and sell the product. From this venture, Carolyn and Tom started Innovative Industrial Products, LLC, to sell other industrial products into the marketplace.

Having established The Harrison Group, LLC, Technology Commercialization Company in 2002, Carolyn is the Managing Partner and involved in the licensing of companies' technologies, as well as the promotion of firms' technology commercialization, sales, and marketing efforts.

Previously, as a Senior Account Executive at the Department of Energy's Idaho National Laboratory (INL), Ms. Harrison was in charge of coordinating the Lab's technology transfer activities with The Big Three auto companies, where she closed the largest Cooperative Research and Development Agreement (CRADA) in the Lab's history.

Ms. Harrison was also an Associate and Director of Business Development for one of the largest architectural/engineering companies in the world: Hellmuth, Obama & Kassabaum, Inc. (HOK). While at the firm, Ms. Harrison directed the business development activities in HOK's Tampa, Dallas, and Denver offices. HOK is known recently for designing the Mercedes-Benz Stadium in Atlanta, Georgia, site of the 2019 Super Bowl.

During her 12 years in Denver, Colorado, Carolyn was also the Manager of two Relocation Centers for the largest real estate company in the State of Colorado, at that time: Van Schaack & Company.

Carolyn's first job out of school was in San Diego, California, as an Associate in the Public Relations Department for a San Diego County start-up company: Stability, Environment, Employment, and Development (SEED) for San Diego County. In this capacity, she worked for the former City Manager of San Diego and interacted directly with officials in San Diego County to introduce and market the Company as it transitioned from its start-up to early-development phases.
