Textile HUI Kits

Textile Tag Description

Sew in fabric tags are woven nylon coated polyamide. It is recommended for garment care and textile label applications. It is thermal transfer printable on both sides and can withstand both washing and dry cleaning. It is compatible with our Resin Textile Ribbon (RTR). Sold in Kits, with a minimum of 12 kits per order.

Resin Textile Ribbon (RTR)

Resin Textile Ribbon is a high quality, extremely durable thermal transfer resin-based ribbon designed for use on PTI Textile Tags. This ribbon has excellent heat, scratch and water resistance. RTR has good chemical resistance and average resistance to alcohol.
