Meet with Industry!

A professional development opportunity for graduate students and postdocs in the biological sciences

- Interact with industry scientists
- Learn about cutting edge technologies in agriculture
- Gain insights into careers within the industrial sector

Wednesday, May 15 2019
1031 Steinmetz Hall, 1881 Natural Area Dr.

2:00 – 3:00 pm: Presentations
3:00 – 3:45 pm: Discussion

Refreshments provided

Presenters:

John Dorsch
Jesse Frederick
Amit Sethi

John joined BASF in 2002 and is currently leading the Insect Molecular Genetics Team for Global Insecticide Research at BASF. He received his BA in Chemistry from Colorado College, MS in Physical Chemistry from the University of Nebraska-Lincoln and PhD in Molecular Biology from the University of Wyoming, followed by post-doctoral positions at The University of Texas at Dallas and the USDA.

Jesse Frederick is a Senior Research Scientist at Altria with experience in microbial expression analysis, recombinant DNA, and omics data integration. He holds a BS in microbiology from Montana State University, Bozeman, a PhD in parasitology from New York University, followed by post-doctoral work at University of Virginia and Virginia Commonwealth University.

Amit Sethi, Senior Research Manager, leads the Global Durability and Resistance Management research function at Corteva Agriscience™, Agriculture Division of DowDuPont™, which works on Insect Resistance Management. He holds a BS in Agriculture and a MS in Entomology from Punjab Agricultural University, an MBA from the Indira Gandhi National Open University, a PhD in Entomology from the University of Florida, followed by post-doctoral experience from Louisiana State University and Purdue University.
