# The Importance of Case Results

Choosing an Attorney to represent you is among the most important decisions you can make. The government has no interest in treating you fairly. Instead, they want to convict you. DUI is different from Criminal Defense.

An attorney must understand science of Field Sobriety Tests and blood tests along with the legal aspects that are necessary to determine whether your detention and arrest are Constitutional. This specialized knowledge can only be found through a commitment to DUI Defense. For example, I am a NHTSA-Qualified Field Sobriety Test Instructor – a distinction held by less than 1% of all attorneys. In addition, I have received the same Advanced Drug Detection training as police officers.

As a result, I have achieved the following results for my clients, usually without the necessity of trial:

## 2010 – 2017 Case Results

- **987** DUI Defendants represented
- **97.03%** of all cases results in LESS than the Mandatory Minimum Sentence.
- **92.7%** of all cases ineligible for ARD resulted in LESS than the Mandatory Minimum Sentence.
- **66.6%** of all non-ARD cases resulted in a DISMISSAL or REDUCTION of charges

### DUI CASE RESULTS

| ARD   | Not Guilty or Charges Dismissed | Reduced Charges, Sentence, and/or Suspension | Intermediate Punishment (Lesser) Sentence | As Charged/Mandatory Sentence |
|---|---------------------------------|--|---|-------------------------------|
| 64.3%   | 3.9%                            | 24.8%  | 4.9%                                      | 2.1%                          |
| 93% of all cases do NOT result in as-charged/Mandatory Sentence |                                 |  |   |                               |

### NON-ARD CASE RESULTS

| Not Guilty or Charges Dismissed | Reduced Charges, Sentence, and/or Suspension | Intermediate Punishment (Lesser) Sentence | As Charged/Mandatory Minimum Sentence |
|---------------------------------|--|---|---------------------------------------|
| 8.3%                            | 74.4%  | 13.0%                                     | 4.3%                                  |
